PARTS & ACCESSORIES FOR YOUR AUSTIN-HEALEY

including technical advice and detailed schematics

PARTS · ACCESSORIES · TOOLS

 Moss has been supplying Classic Car parts to enthusiasts since 1948. We specialise in MG, Triumph, Austin-Healey, classic Mini, Jaguar, Morris, and Mazda MX-5 parts and accessories, and offer a wide range of tools and consumables. Benefitting from decades of experience, we are now one of the world's oldest and largest suppliers to owners of classic cars.

Today, our mission is to keep the great marques alive and well by supplying parts and accessories of the highest standard. We offer friendly, professional, and knowledgeable service, and hold a vast inventory of parts in stock, backed by fast, reliable delivery throughout Europe.

EU based customers can now shop with Moss in the EU without worrying about customs charges or import taxes, and can benefit from fast and reliable delivery sent from Moss Paris across the EU.

- ✓ No customs charges
- ✓ No import taxes
- ✓ EU to EU shipping
- ✓ EU based sales and customer service team
- ✓ English speaking staff

 Moss fournit des pièces de voitures de collection aux passionnés depuis 1948. Nous sommes spécialisés dans les pièces et accessoires MG, Triumph, Austin-Healey, Mini classique, Jaguar, Morris et Mazda MX-5, et proposons une large gamme d'outils et de consommables. Forts de plusieurs décennies d'expérience, nous sommes de fait, l'un des plus anciens et des plus importants fournisseurs de propriétaires de voitures de collection au monde.

Aujourd'hui, notre mission est de maintenir les grandes marques en vie et en parfait état ce, en fournissant des pièces et des accessoires de la plus haute qualité. Nous offrons un service convivial, professionnel et compétent, et possédons une vaste gamme de pièces en stock, doublé d'une livraison rapide et fiable dans toute l'Europe.

Les clients basés au sein de l'UE peuvent désormais faire leurs achats chez Moss dans l'UE sans se soucier des frais de douane ou des taxes d'importation et peuvent bénéficier d'une livraison rapide et fiable expédiée depuis Moss Paris dans toute l'UE.

- ✓ Pas de frais de transitaire
- ✓ Pas de taxes d'importation
- ✓ Livraison de l'UE à l'UE
- ✓ Équipe de vente et de service à la clientèle basée dans l'UE
- ✓ Personnel parlant anglais

 Moss versorgt Oldtimer-Liebhaber seit 1948 mit Einzelteilen für Ihre Klassiker und ist mit seiner jahrzehntelangen Erfahrung einer der ältesten und größten Anbieter für Kunden in diesem Segment. Zu unserem Repertoire zählen Autoteile und Zubehör für die Marken MG, Triumph, Austin-Healey, den klassischen Mini, Jaguar, Morris und den Mazda MX-5. Darüber hinaus bieten wir eine breite Palette an Werkzeugen und Verschleißteilen an.

Mit unserer Arbeit möchten wir die großen Marken am Leben erhalten und liefern hierzu die hochwertigsten Teile und Zubehörartikel. Unser umfassender Lagerbestand kann schnell und zuverlässig an verschiedene Orte in ganz Europa versandt werden. Unser freundlicher, professioneller und fachkundiger Kundenservice berät Sie gerne dazu.

Kunden aus der EU können nun dank EU-Versand über Moss Paris ganz sorgenfrei bei Moss bestellen, ohne Zollgebühren oder Importsteuern zu zahlen.

- ✓ Keine Zollgebühren
- ✓ Keine Importsteuern
- ✓ Versand innerhalb der EU
- ✓ Vertriebs- und Kundendienstbüro in der EU
- ✓ Englischsprachige Mitarbeiter

 Moss fornisce parti per auto classiche agli appassionati dal 1948. Siamo specializzati in parti e accessori per MG, Triumph, Austin-Healey, Mini Classic, Jaguar, Morris e Mazda MX-5 e offriamo una vasta gamma di utensili e prodotti di consumo. Grazie all'esperienza decennale, ora siamo uno dei fornitori più vecchi e più grandi del mondo per i proprietari di auto classiche.

Oggi la nostra missione è mantenere vivi e in buone condizioni i grandi marchi, fornendo parti e accessori dello standard più elevato. Offriamo un servizio cordiale, professionale e competente e possediamo un vasto catalogo di parti in stock, supportato da un sistema di consegne veloce e affidabile in tutta Europa.

I clienti nell'UE ora possono acquistare da Moss nell'Unione Europea senza preoccuparsi di spese doganali o tasse di importazione e possono beneficiare della consegna veloce e affidabile da Moss Paris in tutta l'Unione.

- ✓ Niente spese doganali
- ✓ Niente tasse di importazione
- ✓ Spedizione in UE dall'UE
- ✓ Team di vendita e di assistenza clienti con sede in Europa
- ✓ Staff che parla la lingua inglese

 Moss lleva suministrando piezas a los amantes de los deportivos clásicos desde 1948. Estamos especializados en piezas y accesorios de MG, Triumph, Austin-Healey, Mini clásico, Jaguar, Morris y Mazda MX-5, y ofrecemos una amplia variedad de herramientas y consumibles. Gracias a las décadas de experiencia acumuladas, ahora somos uno de los proveedores más antiguos y grandes del mundo para propietarios de coches clásicos.

Hoy nuestra misión es mantener vivas y presentes las grandes marcas suministrando piezas y accesorios de la más alta calidad. Ofrecemos un servicio cercano, experimentado y profesional, y poseemos un extenso inventario de piezas en stock que se ve respaldado por un servicio de entrega a toda Europa rápido y fiable.

Ahora, los clientes de la Unión Europea (UE) pueden adquirir los productos de Moss directamente desde su territorio, sin preocuparse por las tarifas aduaneras ni los aranceles, y beneficiarse así de un servicio de entrega rápido y fiable a toda la UE desde Moss París.

- ✓ Sin tarifas aduaneras
- ✓ Sin aranceles
- ✓ Envío de UE a UE
- ✓ Equipo comercial y de atención al cliente basado en la UE
- ✓ Le atendemos en inglés

 A Moss tem vindo a fornecer peças de automóveis clássicos a entusiastas desde 1948. Especializamo-nos em peças e acessórios para MG, Triumph, Austin-Healey, Mini clássico, Jaguar, Morris e Mazda MX-5. Disponibilizamos também uma vasta gama de ferramentas e consumíveis. Com décadas de experiência, somos um dos maiores e mais antigos fornecedores de peças do mundo para proprietários de automóveis clássicos.

A nossa missão é manter as grandes marcas vivas e presentes, fornecendo peças e acessórios do mais alto nível. Oferecemos um serviço amigável, profissional e especializado, e mantemos um vasto inventário de peças em stock, apoiado por uma entrega rápida e fiável em toda a Europa.

Os clientes sedeados na UE podem agora efetuar compras na Moss Paris sem preocupações relativas a taxas aduaneiras ou impostos de importação, beneficiando também de entregas rápidas e fiáveis com envio a partir de França.

- ✓ Sem taxas aduaneiras
- ✓ Sem impostos de importação
- ✓ Envio da UE para a UE
- ✓ Equipa de vendas e apoio ao cliente sediada na UE

BUMPERS

Car bumpers aren't just an aesthetic feature at the front or rear part of the body. The main purpose of a bumper attached to these most conspicuous parts of your car is to keep you and your passengers safe, as well as to protect the car itself and minimise any damage in the event of an accident. Our bumpers are made of solid material, which provides wide areas in the front and rear of the car for effective protection. These bumpers are chromed for that authentic classic car look.

Front bumper (100-4)	854-260.....	€406,80
Rear bumper (100-4)	854-270.....	€416,40
Overrider, front or rear (100-4).....	27H9612.....	€101,52
Front bumper (100-6)	11B5303.....	€318,00
Rear bumper (100-6)	11B5312.....	€318,00
Overrider, front or rear (100-6 & 3000).....	11B5308.....	€63,60

BIG BRAKE KIT

Modern four piston calipers combined with our unique cross-drilled and slotted discs improve pedal feel and braking response.

Kit includes:

- A set of braided stainless steel hoses
- A set of pads for an all-around improvement that is reassuring in today's traffic
- Complete instructions

Drilled & slotted disc brake kit	586-725.....	€943,20
(BJ8 from (c)26705-on)		

BRAKE DISCS

Improved braking for your Big Healey. Get the stopping power you need with a Moss Exclusive. Cross Drilled holes lower brake temperatures and reduce rotational mass and out-gassing, while slots allow excess water, dirt, and dust to dissipate.

- Brake disc, single (BN7-BJ7, BJ8 to (c)26704)... BTC104 €41,64
- Brake disc, single (late BJ8)..... BTC371 €84,60
- Drilled & slotted discs, pair (late BJ8) 586-620..... €252,00

EBC BRAKE PADS

Designed for premium road driving offering better brake effect at loads and speed. EBC Greenstuff has a high initial brake effect and gives drivers confidence from first application of the brake pedal. There is no such thing as a no dust pad. The very nature of how a brake works requires that some dust be generated to avoid disc vibration (shimmying). The EBC pad creates less dust and dust is more easily washed off than most. All pads create more dust as they are bedding in especially if discs are worn. Nominal friction coefficient 0.55.

- Greenstuff brake pad set (BJ8 from (c)26705)... TT31501G.... €63,84

CLASSIC GOLD BRAKE SHOES

The Classic Gold range has been developed to directly replace hard to find original components, like brake shoes and other replacement parts.

- Brake shoe set, front (BN2-BN6) 8G8159..... €88,92
- Brake shoe set, rear (BN1-BJ8) LKKB1088.... €51,72

CLASSIC GOLD BRAKE PADS

Replace old and worn out brake pads with new ones to improve your braking. Our semi-metallic brake pad sets by Classic Gold offer:

- Shorter stopping distances
- Squeal free
- Less dusting than organic pads
- Asbestos free composition
- Anti-squeal compound bonded to brake pad backing
- No need to purchase expensive Anti-Squeal Shims

For the best brake pads Moss offers, step up to the Classic Gold Premium Ceramic Brake Pad which features:

- Withstands high braking temperatures
- Less fade
- Quicker recovery
- Ultra quiet braking
- Nearly dust free (Wire Wheel owners, this is the pad for you!)
- Anti-squeal compound bonded to brake pad backing (no need to purchase expensive Anti-Squeal Shims)

- Brake pads, semi-metallic (BN7-BJ8 to (c) C26704) . GBP116AF... €41,64
- Brake pads, semi-metallic (BJ8 from (c) C26705).. GBP114 €26,64
- Brake pads, ceramic (BN7-BJ8 to (c) C26704)... GBP116CM... €33,96
- Brake pads, ceramic (BJ8 from (c) C26705) GBP114CM... €45,84

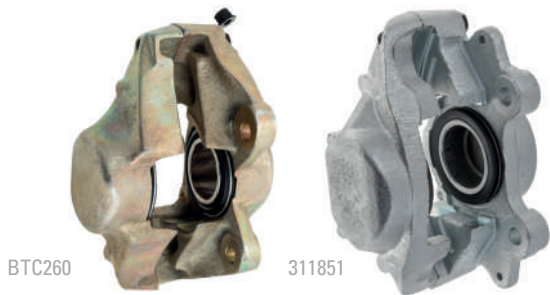

BCC BRAKE CALIPER SET

Each BCC brake caliper kit contains a pair of BCC 4 pot calipers anodised in black, EBC Ultimax brake pads (including pins, clips and springs), bleed nipples, bridge and feed pipes. Each kit is a simple bolt-on installation requiring no permanent modification to the vehicle and is completely reversible.

- Using the proven BCC design the calipers are machined from Aerospace grade Aluminium for strength and durability.
- BCC calipers are hard anodised to prevent corrosion and then assembled.
- The pistons are made by BCC from 303 Stainless Steel to prevent corrosion and ensure a long life of faultless operation.
- The seals are supplied by British manufacturers of OEM automotive hydraulic seals.
- BCC calipers are fastened together with 10.9 grade high tensile steel bolts or high grade 316 HiMo Stainless Steel bolts certified to grade 10.9.
- They are supplied with Copper/Nickel Alloy hard lines with Brass fittings and EBC Ultimax brake pads.

- BCC brake caliper set, front (BN1- BN7, BT7) ... BCC105.... €1.040,40
- BCC brake caliper set, front (BJ7, BJ8) BCC104.... €1.040,40
- EBC brake pad set, Greenstuff (replacement)..... BCC202G €57,36
- EBC brake pad set, Ultimax (replacement)..... BCC202KV.... €47,04

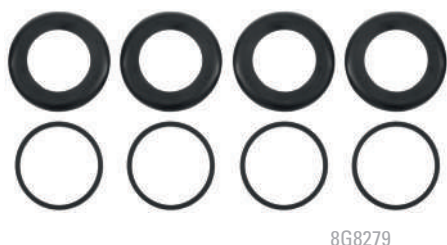

BRAKE CALIPERS

We have recently re-tooled to produce these high quality new brake calipers, supplied complete with pistons and seals and ready to fit. As these calipers are sold outright, there is no need to return old units and no additional surcharge. Please do not attempt to 'split' the calipers.

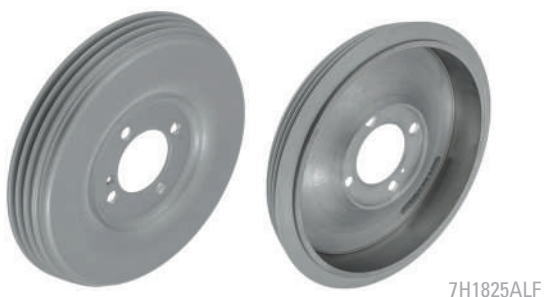

- Brake caliper, RH (BN7, BT7, BJ7, BJ8 up to (c)26704). BTC260 €308,40
- Brake caliper, LH (BN7, BT7, BJ7, BJ8 up to (c)26704). BTC261 €308,40
- Brake caliper, RH (BJ8 from (c)26705) 311851 €110,04
- Brake caliper, LH (BJ8 from (c)26705) 311852 €110,04

BRAKE CALIPER REPAIR KITS

The repair kits and pistons for 16P and 16PB calipers are different and they are not interchangeable. The later 16PB type kit (519731Z) differs from the early 16P kit (601960) in using a steel spring clip to retain the dust shield on the caliper body.

- Caliper seal set (BN7, BT7, BJ7, BJ8 to (c) 26704). 8G8279 €24,60
- Caliper seal set (BJ8 from (c) 26704) - aftermarket. 519731Z €19,80
- Caliper seal set (BJ8 from (c) 26705)..... 601960 €70,32

ALFIN STYLE BRAKE DRUMS

These Alfin style brake drums, reproductions of the rare factory alloy finned shell units, not only help to reduce brake fade under heavy braking, they also look great on your classic.

Sold individually.

- Alfin style brake drum, front 7H1825ALF .. €358,80 (BN1 to 228046)
- Alfin style brake drum, rear 7H1825ALF .. €358,80 (BN1 to 221535)
- Alfin style brake drum, rear 1B7526ALF .. €316,80 (BN1 from 221536, BN2, BN4, BN6, BN7, BT7, BJ7, BJ8)

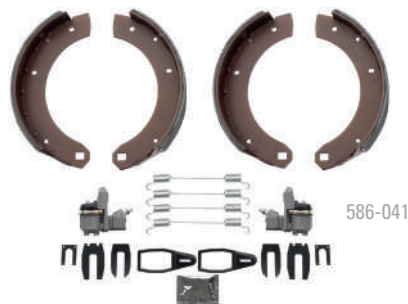

REMOTE BRAKE SERVO KIT

For those who find the brake pedal rather hard after driving modern vehicles, these remote mounted servo kits will make braking easier by reducing pedal effort.

Suitable for all single-line brake circuits they are remote mounted and easily plumbed into the hydraulic and vacuum systems of the car.

We offer either a Lockheed or an aftermarket kit, both are supplied with mounting brackets and hardware.

- Remote brake servo kit, Lockheed TT3949..... €404,40
- Remote brake servo kit, aftermarket..... TT3949Z €139,56

REAR BRAKE KITS

For your convenience we've grouped all the high quality parts you need for a complete rear brake job on a stock system.

The rear brake kit includes:

- 4 Brake Shoes
- 4 Brake Shoe Return springs
- 2 Wheel Cylinders
- 1 Fitting Kit

- Brake kit, rear (BN1-BN6) 586-041..... €149,04
- Brake kit, rear (BN7-BJ8) 586-042..... €143,88

COBALT STAINLESS STEEL BRAKE HOSE SETS

Stainless steel brake hoses provide a more direct and consistent brake feel. They won't expand like rubber hoses can. Order this complete set of long-lasting braided steel hoses for your next brake job. DOT approved.

- BN1, BN2, BN4 584-068..... €81,84
- BN6 584-098..... €55,56
- BN7 584-058..... €89,76
- BT7, BJ7, BJ8 584-078..... €73,80

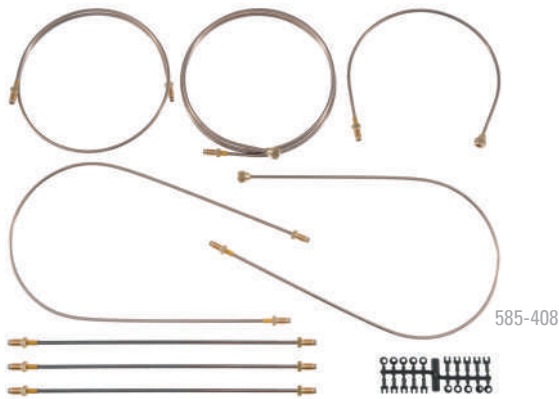

GOODRIDGE BRAIDED HOSE SETS

Goodridge brake hose kits feature the finest quality hose, consisting of a PTFE inner with a stainless steel outer braid. This eliminates the spongy feel under arduous conditions, giving greater brake operation as well as providing superior resistance to abrasion and corrosion.

These kits, therefore, not only provide the reliability and safety demanded but offer brilliant good looks that improve the appearance of any installation. Every brake line made by Goodridge is 100% pressure tested and guaranteed to be leak free and give an improved braking performance. They are also 100% TUV, DOT, ADR and ISO approved and can be used worldwide.

- Brake hose set, black (BN1, BN2, BN4, BN6) GBL052190 . . . €93,12
- Brake hose set, clear (BN1, BN2, BN4, BN6) GBL052120 . . . €93,12
- Brake hose set, black (BN7) GBL052192 . . . €93,12
- Brake hose set, clear (BN7) GBL052122 . . . €93,12
- Brake hose set, black (BT7, BJ7, BJ8) GBL052191 . . . €93,12
- Brake hose set, clear (BT7, BJ7, BJ8) GBL052121 . . . €93,12

COPPER BRAKE PIPE SETS

These copper brake pipe sets are assembled for each specific model and are individually labelled to the instruction sheet, so there is no doubt as to where they fit on the car. Each pipe is cut to correct length and fitted with solid brass unions.

Won't rust as use only top quality copper and copper nickel tubing manufactured in Great Britain specifically for braking systems. All brake pipes are electrically and pressure tested to ensure that they meet the highest standards.

The pipes are supplied coiled but are strong and malleable, allowing them to be readily formed by hand or with pipe bending tool.

Copper/nickel brake pipe set

- RHD (BN1-BN2) 585-407 €191,04
- LHD (BN1-BN2) 585-408 €182,40
- RHD (BN4-BN6) 585-417 €158,16
- LHD (BN4-BN6) 585-418 €174,96
- RHD w/o servo (BN7, BT7, BJ7) 585-427 €175,68
- LHD w/o servo (BN7, BT7, BJ7) 585-428 €196,80
- LHD with servo (BN7, BT7, BJ7) 585-438 €189,36

GIRLING STYLE RESERVOIRS BY CLASSIC GOLD

Re-engineered and made to the highest modern standards, yet with great attention to detail that keeps it looking period-correct and authentic looking. These are the absolute best reproductions ever made of the Girling style reservoirs. Much time was put into researching the correct decals for these reservoirs, and these reproductions were designed by Roger Moment. Even the caps are correct - faceted and embossed where applicable.

Not only was great care taken to get the visual details right, but modern engineering makes this piece better than original. The black paint is resistant to all brake fluids. The cap is supplied with an improved 'no splash' reservoir seal which limits the exposure of the brake fluid to atmospheric moisture while preventing fluid from splashing against the underside of the cap. The vent holes in the inner and outer cap surface are offset, as they were originally. The vent design and the seal make it impossible for fluid to splash against the underside of the hood.

The original copper washers were prone to leak because the bottom of the can is very thin, and they cannot get an adequate 'crush'. This reproduction piece has special stainless steel washers that have integral DuPont Viton O-rings, with one on the inside and one on the outside to seal the outlet fittings. In testing, we found these seals to be effective and completely leak free with all types of brake fluid, even when we pressurized the reservoir (which of course will never happen in use).

- Brake reservoir, single outlet 3H920 €79,20 (BN1-BN2)
- Brake & clutch reservoir, dual outlet 114530 €74,76 (BN4 from (c) 48863, BN6-BT7 to early 1959)
- Brake & clutch reservoir with Girling decal 114530 €74,76 (BN7, BT7 from mid 1959, BJ7, BJ8)
- Decal, dual outlet tank 216-496 €4,20
- Reservoir label, Girling warning CRST148 €5,64

FRONT SHOCK ABSORBERS

Brand new lever arm front shock absorber for big Healey's. This new shock absorber has a later type of main body to the original as it has a half inch taller air chamber as part of the casting so check clearance when fitting. The good news is this design gives more consistent damping by helping to keep air and foam out of the main workings of the shock.

Shock absorber, front (100-4, 100-6 & 3000) .. GSA111 €247,20

REAR SHOCK ABSORBERS

New rear lever arm shock absorbers for big Healey's. These are brand new shocks, not reconditioned units.

RH (100-4, 100-6, 3000 to BJ8 (c)26704) 1B7445 €177,48
 LH (100-4, 100-6, 3000 to BJ8 (c)26704) 1B7448 €177,48
 RH (3000 BJ8 from (c)26705) GSA153 €182,40
 LH (3000 BJ8 from (c)26705)..... GSA154 €182,40

UPRATED SHOCK VALVES

About 25% stiffer than standard valves. For race purposes. Sold individually.

Shock valve, front (BN1-BJ8) 655-060 €38,04
 Shock valve, rear (BN1-BJ8) 655-070 €38,04

ADJUSTABLE SHOCK MOUNT SET

Adjustable camber is useful for a road car, but essential for racing or other high performance driving to take advantage of modern tyre design. This kit replaces the original shock mount plates that are welded to the top of the Healey frame towers, using a tapped plate machined from high tensile strength steel which can be adjusted in and out with two horizontal bolts to give exactly the correct camber adjustment you desire.

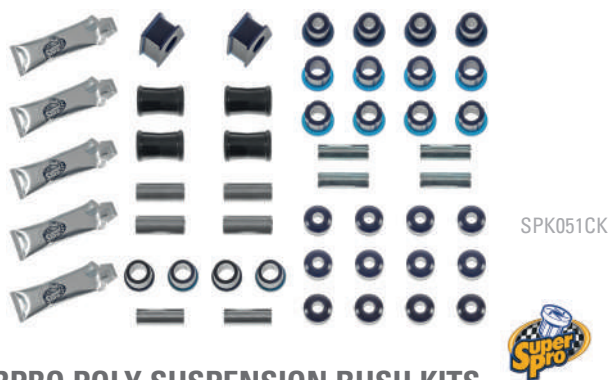

Adjustable shock mount set (BN1-BJ8) 856-115 €456,00

ANTI-ROLL BARS

The standard front anti-roll bar will need uprating when the engine and suspension are modified. The front anti-roll bar is supplied separately, we suggest you also replace the fittings and bushes.

Anti-roll bar 5/8", uprated (BN1-BJ8) 031-281 €164,88
 Anti-roll bar 3/4", uprated (BN4-BJ8) 031-495 €175,80
 Bush, anti-roll bar mounting 5/8" 1B4526 €1,92
 Bush, anti-roll bar mounting 3/4" AHH7927 €2,16

SUPERPRO POLY SUSPENSION BUSH KITS

SuperPro bushes are tried, tested and proven in motorsport, which means they deliver outstanding performance. Their innovative design and superior materials offer dramatic improvements in handling and give a more precise feel through the corners. Unlike some polyurethane bushes, with SuperPro products there is no increase in vibration or ride harshness, an attribute that makes them an ideal choice for cars that are used for both normal road driving and track days.

Complete car bush kit (BN1-BN7, BT7, BJ7).. SPK051CK €338,40
 Complete car bush kit (BJ8) SPK052CK €496,80
 Sway link set (BN1-BJ8)..... 3H3079SPK €22,56
 Control arm set (BN1-BJ8) ACB9274SPK.... €94,08

REAR LEAF SPRINGS

Apart from fitting front anti roll bar, you must also ensure that the rear spring doesn't spoil all your hard work at the front. See our selection of rear leaf springs.

BN1, BN2 1B8929 €129,36
 BN4, BN6, BN7, BT7, BJ7, BJ8 to (c)26704... 11B5266X €152,16
 BJ8 from (c)26705 AHB9980X.... €128,52

KING PIN SET

King pin pair complete with bushes, lower fulcrum pins, cotter pins, seals, shims, grease nipples, washers and nuts required to fit. King pin bushes need reaming once fitted.

King pin set (BN1-BJ8) QHQP295TCF €147,96

386-375

KING PIN REAMING TOOL

This kingpin reaming tool ensures that your swivel pin bushings are perfectly aligned. This purpose-built tool is a great addition to any Austin-Healey owner's collection.

King pin reaming tool..... 386-375 €554,40

Pin, cotter, UNF 53K1770..... €4,08

Pin, fulcrum, lower link, outer 1A4788..... €14,28

031-195

TRUNNION BEARING KIT

Replace your factory thrust washer with our useful Top Trunnion Bearing Kit. Greatly reducing friction, it helps you steer and manoeuvre your Healey with noticeable ease. This high quality kit replaces the bronze thrust washers in the top trunnions and should not be confused with cheaper alternatives available in the market.

Trunnion bearing kit (BN1-BJ8) 031-195 €58,92

Trunnion shim, 0.004" 031-196 €1,08

661-910

FRONT COIL SPRINGS

These springs differ slightly from original, but are the closest available replacement. Must be fitted in pairs.

Coil spring, front..... 661-910 €50,76
(BN1, BN2, BN4 from C.E.35077 LHD & 35827 RHD, BN6, BN7 to (c)10328, BT7 to (c)10302)

Coil spring, front..... 1H4092 €64,08
(BN7 from (c)10329, BT7 from (c)10303, BJ7, BJ8)

POLY SWAY BAR, PANHARD ROD & GEARBOX ROD BUSH

Tighten up your Healey. These exclusive polyurethane bushings directly replace the sway bar, Panhard rod or gearbox restraint rod bushes. The black coloured bush is suitable for restoration use and has a hardness of approximately 95 shore A.

Bush, polyurethane, each (BN1-BJ8)..... 021-777 €6,00

POLYURETHANE REAR SPRING BUSH SET

Enjoy increased performance and a prolonged life with the brand new polyurethane bushing set. A consistently top quality product, each bushing in this set has been made with a shore hardness 80 and are dark blue. Featuring a unique lip seal, the cross-hatched surface inside the bore of these bushes retains the special polyurethane-safe grease which is included with each set. Manufactured from USA produced urethane. Application specific.

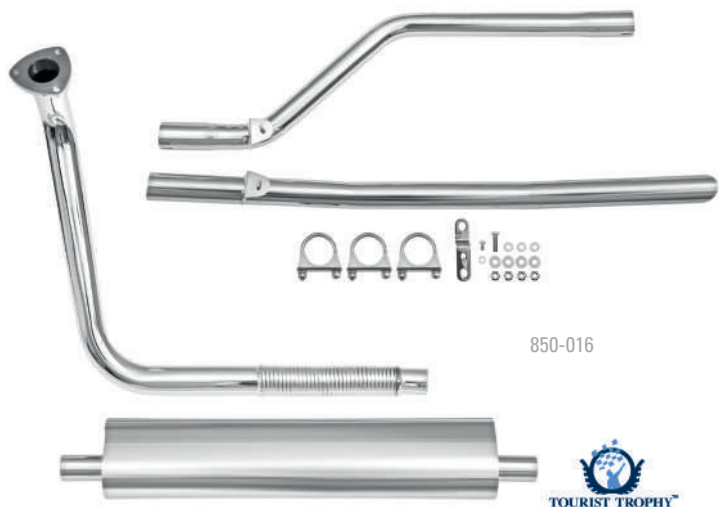

Rear spring bush set (BN1-BJ8) 680-961 €42,24

HIGH RATIO STEERING BOX & SHAFT ASSEMBLY

Give your Healey the sharp, sports car response it was always meant to have with a quick-ratio steering box. Manufactured in England, our High-ratio Steering Box and Shaft Assembly is lock-to-lock in 2.5 turns compared to a standard box at 3.25 turns.

BN4 (c)68960 on, BN6, BN7, BT7, BJ7, BJ8... 667-831 €1.927,20

850-016

TOURIST TROPHY STAINLESS STEEL EXHAUST SYSTEMS

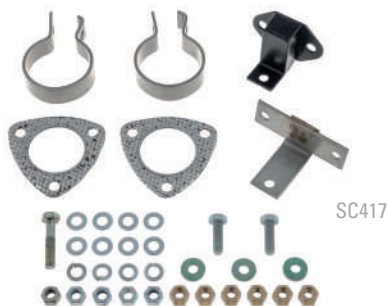

Treat your Austin-Healey to one of the finest sports exhausts available... These superb Tourist Trophy polished stainless steel sports exhaust systems are manufactured using the highest quality materials and workmanship. The systems are manufactured from highly polished stainless steel and the silencer is packed with a combination of stainless steel wire wool and fibreglass, this give a throaty exhaust note under acceleration that isn't intrusive when cruising.

- 1.2mm thick 304 grade stainless steel
- 409 stainless steel used for inner core and perforated tubing
- Entire system is polished to a mirror shine
- CNC cut flange
- Tail pipe angled away from overrider
- 5 year limited warranty*

Warranty information

This systems are warranted to the original purchaser of record and for the original vehicle on which the product was installed, against defects in materials and workmanship for 5 years. Moss' sole obligation under this warranty shall be limited to repair or replacement at Moss' option, provided that the silencer discloses a manufacturing defect. Warranty is void if any defects are caused by a physical impact of any kind.

021-961

PERFORMANCE EXHAUST MANIFOLD & SIDE EXIT SILENCER

Compared to an original manifold, the Free Flow Inlet Manifold provides distinctly better air flow, therefore improving the air-fuel ratio to the engine. It produces a flatter torque curve which results in a smoother drive and an increase in power. For the best results use with 2" HD8 carbs and 6 branch exhaust manifold, but it can be used with smaller 1 3/4" carbs and the OE cast iron exhaust manifold.

Manifold (Late BN4-BJ8)	021-960	€1.027,20
-------------------------------	---------------	-----------

Boost your car's performance and add a racer look with the 304 stainless-steel performance exhaust manifold and side exit muffler. Manufactured using sophisticated pipe bending technology, these tubular manifolds result in optimum exhaust gas flow. Designed for the BJ8, it can be installed on all the 3000 models with slight modifications. The Exhaust Side Exit Muffler with its 2 inch diameter bore adds a sporty look to your car. Reasonably priced. Great buy for any vintage racing enthusiast.

Note: Both parts should be used together otherwise custom exhaust work would be required. Designed for the BJ8, but can be installed on all the 3000 models with slight modifications.

Manifold (BJ8 1963-68).....	021-961	€1.261,20
Side exit exhaust (BJ8 1963-68)	021-962	€604,80

021-964

PERFORMANCE EXHAUST MANIFOLD

Get maximum performance and optimum gas flow with our brand new exhaust manifolds. Based on the 6 branch manifold designs, the exhaust manifolds have 1 3/4" collectors into 2" outlet pipes. Manufactured using mandrel bending process, the bore of the pipes is not reduced, ensuring an unrestricted gas flow.

Available in two choices, you can select a manifold that can only be used with SU carbs or only with triple Weber carbs. The thicker gauge, mild steel pipe reduces noise levels and is finished in heat-proof paint. Reasonably priced. Useful buy!

Note: This system will require the front left hand outrigger to be modified to fit the BJ8.

Exhaust Manifold

- BN6-BJ8 with SU carbs 021-964 €969,60
- BN6-BJ8 with triple Weber carbs 021-965 €962,40

Side exit exhaust

- BN4-BJ8 with OE manifold 021-956 €577,20
- BN4-BJ8 with performance manifold 021-957 €620,40 (021-964 or 021-965)

GAC185

GAC9908X

THERMO-TEC HEAT INSULATION MATERIAL

This general purpose material is designed to prevent heat damage in a variety of applications. It can be used to cover bulkheads and floors to keep general heat transfer to the cockpit to a minimum. It can also be used to wrap and cover components in the engine bay to prevent heat damage. This race proven, asbestos free, product from Thermo-Tec is manufactured using an aluminised coating on a woven backing. The material can be easily cut to the required shape and retained with high temperature adhesive, rivets & washers or snap straps depending on where you want to use it.

- Heat insulation material, 1m x 1m GAC185 €126,72
- Heat shield, catalytic converter / silencer GAC184 €140,76
- High temperature adhesive GAC9908X €18,12

EXHAUST SKID PLATE

The BJ8 stock type exhaust hangs very low. The lower front edge of the two silencers under the driver's seat (LHD) can catch on speed bumps, high spots in the road, driveway slopes and so on. Hit something hard enough and you can actually damage the entire exhaust system. This heavy duty, 14-gauge stainless steel skid plate will take the abuse that would otherwise damage the exhaust and will not rust.

- Exhaust skid plate (BJ8) 850-003 €82,68

TT9932S

TT9930S

TT9937S

REPLACEMENT MIKALOR BAND CLAMPS

Mikalor stainless steel band clamps are the best clamps available. Designed and manufactured to the highest standards using stainless steel bands and zinc plated screws. The design of the screw mechanism means that it is impossible to lose the screw and trunnion and the bevelled edges of the band gives protection against abrasion. The design of these clamps and material specification means they are ideal for motorsport applications. The screw and trunnion is designed to take higher torque than standard 'worm drive' hose clamps, this gives increased clamping grip for high pressure use. These clamps are suitable for use on hoses and exhaust systems, the thin band design allows installation where pipes run close together, such as manifold Y pieces and collectors.

- Exhaust clamp, 1 11/16" - 1 7/8" (43-47mm) .. TT9932S €6,24
- Exhaust clamp, 1 7/16" - 1 9/16" (37-40mm) .. TT9930S €4,44
- Exhaust clamp, 1 7/8" - 2" (47-51mm) TT9933S €4,44

EXHAUST HEAT INSULATION

Wrapping a tubular manifold will keep engine bay heat to a minimum, reducing engine bay temperatures by up to 70%. This will benefit power in two ways; firstly it will reduce the temperature of the air going into the engine; secondly, it improves the effectiveness of the manifold by increasing gas speed due to lower gas density, increasing the scavenging effect. Manifold wrap is supplied in rolls in a variety of sizes. Use Snap Straps to hold the wrap or blanket in position.

Roll size (w x l)

1" x 15' roll, natural.....	GAC150.....	€21,36
2" x 15' roll, natural.....	GAC152.....	€36,84

1" x 50' roll, black	GAC155.....	€70,56
2" x 50' roll, black	GAC157.....	€115,56

HEAT SHIELDS

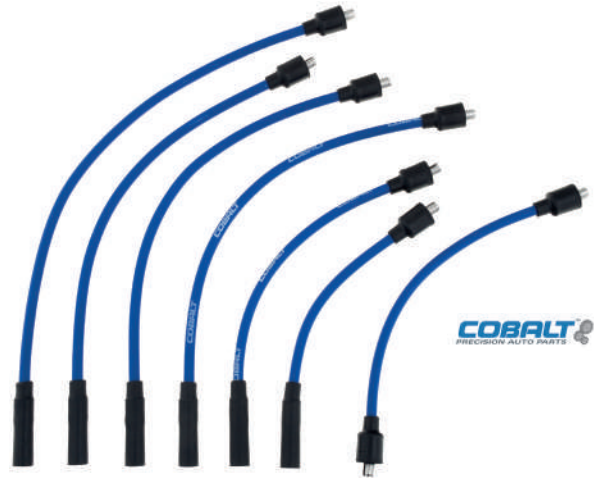

Our R&D department has developed two supplemental heat shields, one for the footbox, and one to go under the floorboard over the exhausts. The exhaust heatshield extends down on each side, shielding the frame rails from the exhausts. Both of our heat-shields start with substantial stainless steel plates, and we add aluminised ceramic fibre insulation. You will secure these heat-shields using the same attachment points as the OE panels. We offer the footbox panel (021-640) for all LHD 6-cylinder Healey's, and the exhaust panel (021-641) for the LHD 3000 MKII & MKIII only - Exhaust heat-shields are not recommended for the MKI 3000 because with no factory heat shield ever fitted, there are no mounting points.

Footbox/firewall panel, LHD (100-6, 3000) ...	021-640	€161,40
Silencer panel, LHD (3000 MkII & MkIII only)	021-641	€206,76

COBALT SILICONE HT LEAD SET

Cobalt Ignition Wire Sets are made precisely for your vehicle, and carry a Lifetime Warranty against defective materials or workmanship! Cobalt Wires feature:

- Compact Silicone Plug Boots provide extra clearance
- EPDM Layer provides more electrical insulation than silicone-over-silicone
- Conductive Polymer Coating protects the conductor and provides terminal contact
- Stainless Steel Conductor for maximum conductivity
- Aramid Fibers provide superior tensile strength
- Spiral Magnetic Core suppresses RFI/EMI interference
- Fiberglass Braid provides superior tensile strength
- 8mm Silicone Jacket resists high temperatures, fuels and oils
- Locking Terminals stay connected under high vibration

Cobalt HT lead set, blue (BJ7-BJ8)	171-665	€80,88
--	---------------	--------

BUMBLEBEE' COMPETITION HT LEAD

If you want a performance HT lead with the correct period look then this 'bumblebee' lead is a must. As per the original 'Lucas' type it features a high conductivity copper core with a yellow insulator featuring a black stripe. Alternatively, use the standard black lead for an 'OE' look.

Bumblebee HT lead (per metre).....	TT2982M	€10,68
HT lead, black (per metre).....	AAA5981M.....	€5,40

HT LEAD NUMBERING SET

Keep track of which HT lead is which with a set of four numbered sleeves.

HT lead numbering set 4 cylinder	CRST255.....	€6,84
HT lead numbering set 6 cylinder	171-640	€18,72

CSI IGNITION DISTRIBUTORS

CSI-Ignition distributors offer a fully electronic ignition system built into the correct type of Lucas distributor housing to suit your car, keeping the original appearance in the engine bay. You can only tell the difference when you remove the distributor cap!

Gone are the points and condenser and mechanical advance mechanism, all replaced with a high quality electronic ignition system manufactured using military specification components for durability and reliability. These distributors are maintenance free (no points to adjust), and offer the benefits of, easier starting & smoother running, more torque & power, reduced fuel consumption & emissions. They also eliminate the weaknesses of mechanical timing advance and problems such as points bounce ensuring correct ignition timing throughout the rev range.

Each CSI-Ignition distributor features 16 easily switchable, optimised ignition curves to allow timing adjustment to suit your car's engine and fuel specifications. Alternative advance curves can be selected to suit your engine's state of tune making them ideal for modified engines. Curves are easily selected using a screwdriver in a rotary switch, with a bright flashing LED indicator to show the selected curve all concealed underneath the distributor cap. As the CSI-Ignition distributor uses the correct type of distributor body for the application it is a direct swap. Full instructions and ignition curve selection guidance is included.

We offer a wide range of CSI-Ignition distributors for a variety of applications.

Optimised:

Suitable for standard and lightly tuned engines with vacuum advance (push-on type only). Suitable for cars running on SU carburettors.

Tuned:

Suitable for engines without vacuum advance. Suitable for the more tuned engines using Weber carburettors. With this implementation, you can often achieve better torque and power results, because by the absence of the vacuum advance unit, it is less likely to suffer from detonation under partial load.

Immobilizer:

Some CSI's offer an immobilizer in combination with the electronic ignition. This immobilizer is easy to install and will prevent your car from being started. You can invisibly install the immobilizer receiver under the dashboard. It works with a sensor hidden in a luxury leather key hanger with a unique code (no battery needed). As soon as the key hanger is near the receiver, your CSI will be activated and you can start your car. Without the key hanger the ignition won't work and your car won't start.

You must use the conventional (non-transformer) type coil with a minimum resistance of 2.5 Ohms, such as our sports coil TT2981 (3.0 Ohms), Bypass the ballast resistor if fitted. The use of a transistor type coil will damage the CSI distributor and invalidate any warranty.

Sport coil (3 ohms)	TT2981	€37,44
Sport coil, Lucas (2.8 ohms)	DLB105	€42,48

CSI PRO-IGNITION DISTRIBUTORS

CSI-PRO-Ignition distributors offer a fully electronic ignition system built into the correct type of Lucas distributor housing to suit your car, keeping the original appearance in the engine bay. You can only tell the difference when you remove the distributor cap!

Gone are the points and condenser and mechanical advance mechanism, all replaced with a high quality electronic ignition system manufactured using military specification components for durability and reliability. These distributors are maintenance free (no points to adjust), and offer the benefits of, easier starting & smoother running, more torque & power, reduced fuel consumption & emissions. They also eliminate the weaknesses of mechanical timing advance and problems such as points bounce ensuring correct ignition timing throughout the rev range.

The CSI-PRO-Ignition is a programmable distributor for your British classic car, allowing you to adjust and program the advance curves yourself. Two selectable pre-sets (modes) can be programmed, each with its own RPM and vacuum curve. Plus, various other settings such as speed limiter, maximum total advance and minimum RPM speed for activating the vacuum advance.

Edit and Write curves, even while the engine is running! The CSI-PRO-Ignition has the unique possibility to write the curves and other settings to the distributor, even while the engine is running, and to have the changes take effect immediately! The static setting (offset of 0 degrees) can also be shifted in steps of 1 degree, up to 10 degrees positive and up to 10 degrees negative, without having to rotate the distributor itself. An acceleration timer measures the time between 2 pre-set speeds to measure and compare the engine's performance. An external switch can be used for switching between the 2 modes.

With immobiliser

- CSI-PRO Bluetooth programming module CSD9932 €112,08

PERTRONIX IGNITION

Ignitor I

These completely self contained electronic ignition units offer a simple alternative to traditional points and condenser arrangement. Designed to fit entirely within the distributor cap they are easy to install with no external control boxes to mount and only two wires to connect, no permanent modifications are involved. The unit uses a sealed Hall Effect sensor that is impervious to dirt, dust, moisture, or vibration and retains standard advance curve. Unaffected by distributor shaft wear, maintains firing accuracy to within 1/4°, reduces spark scatter over the full rpm range. One year warranty.

Ignitor II

The Ignitor II has many of the same great features that the Ignitor has, but even more. The Ignitor II units sense the coil current level and use a powerful micro controller to adjust the dwell. Variable dwell helps to maintain peak energy throughout the entire RPM range. Ignitor II systems develop significantly more energy between 3000 and 5000 RPM than standard ignition systems.

SMOOTHCUT REV LIMITERS

Perhaps you don't use your car flat out, but this could save an expensive bill by avoiding over-revving. The road use rev limiter comes preset for four cylinder cars to 6000rpm. It allows use of full throttle up to the limit, at which point power is gradually reduced. This unit can be preset to the customers specification; please ask for details. The competition unit is fully adjustable and works by progressively mis-timing the spark - preventing an increase in engine speed, and reducing the possibility of damage to your engine. It is suitable for 4, 6 or 8 cylinder engines.

SmoothCut rev limiter 4 cylinder preset 6000rpm	TT2987	€157,20
SmoothCut rev limiter adjustable limit	RL5	€213,36

ROTOR ARMS

Cheaper rotor arms available are prone to failing prematurely as the material is too conductive, the rivet which holds the brass inlay into the moulding is slightly longer than the original, bringing it too close to the spring clip on the underside. As a result the high tension current, averaging 30,000 volts, shorts out from the tip of the overlength rivet, through the reduced thickness of more conductive plastic via the spring clip on the underside of the rotor arm to earth out down the distributor shaft. Result - no sparks at the plugs. These Distributor Doctor rotor arms are modelled on the original, dependable 1960's design, but made from modern materials on the latest machinery to very close tolerances. These arms will not let you down. The integrally moulded brass inlay dispenses with the troublesome rivet used on most versions which is known to short circuit. The increased insulation properties of the body makes them suitable for use with high voltage coils & electronic ignition kits. The spring steel clip on the underside, in conjunction with a revised internal tolerance assures a really snug fit, even on old & slightly reduced diameter mountings.

Rotor arm, 25D4, high quality (BN1-BN2)	GRA2101HQ	€14,40
Rotor arm, 25D6, high quality (BN4-BJ8)	GRA102HQ	€14,40

WOSP HIGH TORQUE STARTER MOTOR

Give your Classic the high torque advantage! Whether you're having problems starting your engines or simply want an upgrade, our selection of high torque starter motors by WOSP perfectly meet your requirements. Manufactured in the UK, these gear reduction starters are powerful, lightweight, and built for performance. Offering increased torque, especially useful on high compression engines, these brand new, application specific starters are direct replacements built to the highest standards to withstand the rigors of all forms of motorsport. Quality and performance, WOSP starters have it all.

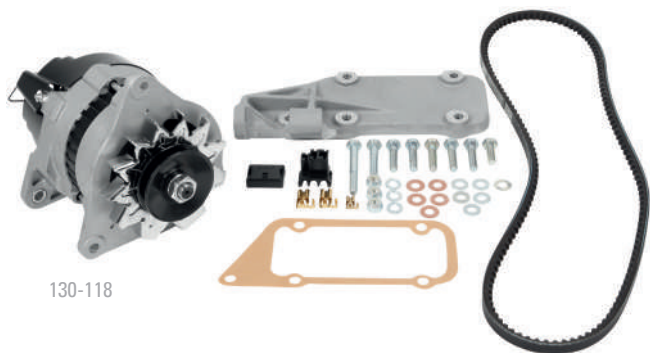

Features:

- All units are 100% brand new
- Based on the Denso conventional offset gear reduction design
- High power 1.0 kW and 1.4 kW Denso motors modified to suit each application and individual requirement
- Manufactured with the latest electronic testing equipment to check the performance of every product produced.

High torque starter motor (BN1-BJ8)	13H837X	€315,60

ALTERNATOR CONVERSION KIT

Whether you'd like to add a supplementary fan to your Austin-Healey's fresh air system, install a radio, power up some halogen headlamps, or simply upgrade your charging systems long term durability, converting your Healey from a generator to an alternator will be essential. Our complete alternator conversion kit makes that a simple process. This kit includes the lightweight aluminium mounting bracket/front side cover, fan belt, 45-amp alternator with cooling fan and pulley, all the necessary fittings, and a set of installation instructions.

- Alternator conversion kit (BN1-BN2) 130-128 €327,60
- Alternator conversion kit (BN4-BJ8) 130-118 €295,20

GEU6603X

GEU6607X

DUMMY CONTROL BOX VOLTAGE REGULATOR

These dummy control boxes are for use with the Wosp Performance range of 'Dynator' alternators, but can also be used with any dynamo to alternator conversion where the original voltage regulator is required for aesthetic reasons. We offer these modified control boxes in the three styles, as used originally, so you can maintain the original aesthetics of your engine bay. Each control box is fitted with an integral fuse, to protect vehicle in case of a short circuit within the existing wiring of the vehicle.

- Control box, dummy voltage regulator, screw .. 3H1835X €66,24
- Control box, dummy voltage regulator, Lucar 22 AMP. GEU6603X. €66,24
- Control box, dummy voltage regulator, Lucar 30 AMP. GEU6607X. €72,44

BATTERY CUT-OFF SWITCHES

Battery cut-off switches are a good idea for all cars. Fitting one enables you to quickly isolate the battery and immobilise the car; ideal when working on your car, or if you intend to put your car into storage.

GAC3192X

GAC31921

Battery mounted cut-off switches

These cut-off switches simply mount to the battery post and feature a screw-in knob to break the circuit. Available with a bypass fuse to allow sufficient current to pass to operate clocks, alarms and coded radios, but if any attempt is made to start the car the fuse will blow.

- Battery mounted cut-off switch GAC3192X ... €11,88
- Battery mounted cut-off switch with bypass fuse .. GAC31921.... €18,84

1B2804

1B2804L

Period cut-off switch

These are reproductions of the Lucas 'Battery Master Switch' which was a popular accessory on many British classics.

- Period battery cut-off switch (short knob) 1B2804 €54,00
- Period battery cut-off switch (long knob) 1B2804L..... €54,00

Primarily intended for competition use, this rugged switch can be used on any car. The removable key deters theft. Attached rubber cap keeps dirt and water out when the key is removed. Meets FIA requirements for motor sports.

- Racing battery switch TT7962..... €45,96

RFK051

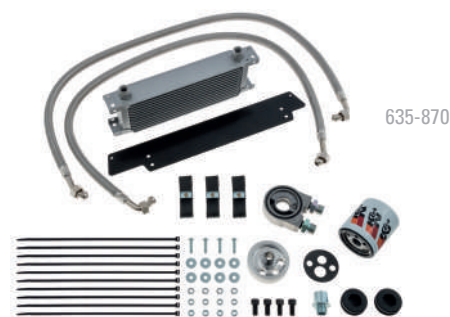

REVOTEC FAN KITS

Keeping your car's engine running at optimum temperature will ensure you get the best performance and economy. Using the latest high efficiency fans with adjustable electronic controllers these kits are designed to replace the standard original mechanical fan, reducing the load on the engine, noise and improving both power and mpg.

Unlike other fan kits that use a universal mounting system, these Revotec kits have bespoke laser cut brackets that mount directly to the radiator mountings. The brackets are anodised to prevent corrosion. The kits also use a precise electronic controller to enable easy adjustment to suit your car. The kits include a high efficiency fan assembly, electronic controller, bespoke laser cut anodised mounting brackets, hardware & wiring & fitting instructions.

635-870

OIL COOLER KITS

Operating at the right temperature prolongs the life of your engine. In addition to lubricating, engine oil acts as a coolant by transferring heat away from critical, high-wear engine components. An engine oil cooler will lower your oil temperature and slow the viscosity breakdown of the oil while maintaining oil pressure. If you live in a hot climate or like to drive your Healey hard, our Oil Cooler Kit is a smart and relatively simple add-on to your engine. 635-810 is designed for cars already using a Moss Spin-On Oil Filter Adapter. 635-870 includes the Moss Spin-On Oil Filter Adapter.

Complete kits include hoses, adapter, 13-row oil cooler radiator and spin-on oil filter adapter.

Oil cooler kit, without spin-on filter..... 635-870 €456,00
 Oil cooler kit, with spin-on filter..... 635-810 €394,80

DYNOLITE OILS

Dynolite offers a premium quality range of lubricants and consumables developed for Veteran, Vintage & Classic cars and motorcycles.

Dynolite lubricants are formulated to exceed the original vehicle manufacturer's specifications and are blended using high quality base oils combined with additive formulations that are suitable for use in these historic vehicles.

For example, Dynolite Pre-War and Dynolite Classic engine oils include optimal levels of ZDDP to reduce wear, which is often found at reduced levels in modern engine oils.

DYNOLITE
EUROPE'S CLASSIC MOTOR OIL

Visit moss-europe.eu for more information

HIGH TORQUE STARTER MOTORS

Especially useful for high compression engines, these powerful and lightweight starter motors are a straight replacement for the original.

The benefit of their huge increase in cranking power means they are less likely to burn out under strain.

WOSP high performance starters have been available in the UK for the last 20 years. They

are built to the highest standards. Most WOSP starter units are based on a modified high power 1.4kW Denso high torque starter motor.

WOSP

See page A15 for more information

SPIN-ON OIL FILTER CONVERSION

Cleaner oil changes will result if you change your engine from the messy original canister filter to a modern spin-on filter. Each kit includes all necessary pieces for installation, filter not included.

Spin-on oil filter conversion (BN1-BJ8) 635-840 €84,24

021-119

ALUMINIUM OIL SUMP

These finned, cast aluminium oil pans improve oil cooling and help stiffen the bottom end of the cylinder block on highly stressed competition engines. The thick, smoothly machined flanges avoid the problem of oil leaks caused by bent flanges. As stock oil pan bolts are too short for use with this oil pan, replacement bolts, washers, and drain plug are included.

Shortened oil pump strainer 836-591 MUST be used with 021-119, and the oil pickup tube shortened.

Oil sump, aluminium (BN1- BN2) 021-119 €300,00

Oil sump, aluminium (BN4-BJ8)..... AEC203AL..... €422,40

OIL PUMP STRAINER

Give your engine an additional level of protection with an Oil Pump Strainer. Built with high quality materials, the strainer has a mesh screen suitable for straining large particles from the oil pan and yet passes a sufficient quantity of oil to the inlet side of the oil pump. When fitted to Austin-Healey 100-4, and when using an upgraded Moss Alloy Oil Sump (021-119), the oil pump pickup tube will need to be shortened as the alloy pan is shorter than stock.

Oil pump strainer (BN1-BN2)..... 836-591 €104,04

833-415

REAR OIL SEAL CONVERSION KIT

Permanently stop rear crankshaft oil leaks with this well-engineered lip-type oil seal conversion kit. Installation involves drilling and tapping holes in the rear of the engine block using a special drilling bush supplied. Includes instructions and all mounting hardware.

Oil seal conversion kit, 6 cylinder 833-415 €103,32

Oil seal, replacement TT1032S..... €15,36

834-887

IMPROVED COOLING FAN

Our Improved Cooling Fan has a brand new design that includes a modern-style hub for increased strength and was manufactured from a Glass filled Nylon material which is strong, rigid, and heat resistant. The fan has been balanced and the blade placement has been adjusted for a more even distribution. Fits 100-6 and 3000 model water pumps, but will fit the 100-4 model water pumps with the 834-884 adapter.

Improved cooling fan 834-887 €58,08

Adapter kit (BN1-BN2)..... 834-884 €72,60

BAU5065M

OIL CATCH TANKS

If you modify the breather or induction systems of your car for either road or track use collection of oil should be considered. An oil catch tank is a must for competition use to prevent oil spillage on the track and it is also desirable to prevent oil vapour settling around the engine bay. These catch tanks are designed to be connected to the crankcase ventilation system, catching the oil vapour, allowing the air to vent through the special cap. Manufactured from high grade aluminium and anodised for a smart, durable finish they feature 2 x 1/2" OD connectors for the breather hoses, level indicator, breather cap and drain plug. Available in 1litre or 2 litre sizes. Mount using the rear flange to a suitable vertical panel in the engine bay.

Oil catch tank, 1lt TT2900 €243,60

Oil catch tank, 2lt TT2901 €262,80

Breather hose, 1/2" ID (per metre)..... BAU5065M €14,64

COBALT CLUTCH HOSE

Offering your classic car the advantage of a stainless-steel braided clutch hose by Cobalt. High quality part available at a budget friendly price. Sold individually. Cobalt stainless steel clutch hoses provide a more direct and consistent pedal feel. They won't expand like rubber hoses can. If you are seeking performance and durability this braided steel clutch hose is a quick and easy solution that offers a noticeable improvement.

- Clutch hose, stainless steel (BN4-BJ8)584-762 **€25,56**

UPDATED CLUTCH LINKAGE

Improve your Austin-Healey clutch performance with this heavy duty clutch linkage. Made in England, this linkage is comprised of steel levers and high quality Heim joints to insure smooth, premium results. As a direct replacement for the original, this linkage should drop in easily into your BN1 or BN2, with no additional alterations necessary.

- Clutch linkage, updated (BN1-BN2)502-227**€139,92**

ALUMINIUM OFFSET CLUTCH PEDAL

Like the original, this superbly crafted clutch pedal has been manufactured from lightweight aluminium. The offset design allows for greater space between the traditionally cramped brake and clutch pedals for a more comfortable drive.

- Offset clutch pedal (BN1-BJ8)021-677 **€30,60**

POLY GEARBOX ROD BUSH KIT

Polyurethane is impervious to deterioration from the effects of ozone and is inherently far more wear resistant. Polyurethane bushes are hard enough to eliminate 90% of unwanted suspension deflection, yet remain flexible enough for a firm and quiet ride. These will outlast stock bushings by 2-3 times.

- Prothane bush kit, gearbox rod, pair280-054 **€16,44**

REAR HUB NUT SOCKET

Highly recommended for every Big Healey owner, this specially designed 8-sided socket makes working on the rear axle a breeze. Sized at 23/16" across flats, this uncommon 8-sided socket will be a great addition to any tool box. Can be used with a 1/2" drive breaker bar or 5/8" diameter Tommy Bar.

- Rear hub nut socket (BN1 from CE221536 - BJ8) 384-907 **€46,56**

TMG2930K

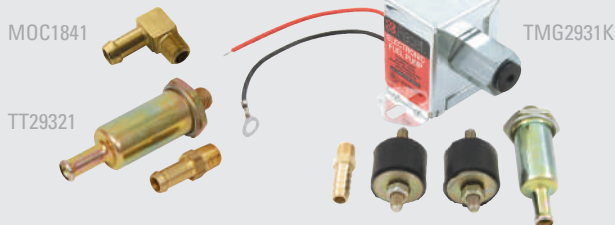

HIGH CAPACITY FUEL PUMPS

The standard fuel pump may not be able to maintain adequate fuel flow and pressure at higher engine speeds, particularly with a tuned engine. The Facet range of fuel pumps will suit all standard and modified engines fitted with carburettors. They give constant fuel flow and pressure, even at high temperatures eliminating the problems associated with vapour lock. The pumps are available in a variety of specifications to suit the engine's fuel pressure and flow requirements. Further fine tuning of the fuel pressure can be easily achieved by the use of a separate fuel regulator, see opposite. With safety in mind we recommend fitting a fuel pump inertia switch kit, so that in the event of an accident fuel delivery is automatically cut-off. Fuel lines may require adapting to install the new pump, check pipe sizes to select the correct unions, additional unions may be required.

Cylindrical fuel pumps

Formerly known as interrupter type pumps, these heavy duty pumps can be fitted at the front or rear of the car and up to 600mm above the bottom of the fuel tank. Kits are supplied with mounting & 8mm unions, alternative size unions available.

- Cylindrical fuel pump kit - road Silver Top TMG2930K . .€166,68 (Up to 150bhp, flow rate: 30 gal/hr, 4.0-5.50 psi, unions: 8mm x 1/8 npt).
- Cylindrical fuel pump kit - fast road Silver Top . . . MGS2930K . .€151,68 (Up to 200bhp, flow rate: 35 gal/hr, 6.0-7.0 psi, unions: 8mm x 1/8 npt).
- Cylindrical fuel pump kit - competition Red Top . . . MGS2932K . .€154,44 (Above 200bhp, flow rate: 40 gal/hr, 6.0-8.0 psi, unions: 8mm x 1/8 npt).
- Cylindrical fuel pump only - competition Red Top . . TT2930€138,96 (Above 200bhp, flow rate: 40 gal/hr, 6.0-8.0 psi, 1/4 npt threads).

MOC1841

TMG2931K

TT29321

Solid state fuel pumps

These pumps should be mounted at the rear of the car (as they are designed to push fuel rather than draw fuel) and ideally below fuel tank level, although they will work up to 300mm above the bottom of the fuel tank. Kits are supplied with mounting & 8mm unions, alternative size unions available.

- Solid state fuel pump kit, fast road TMG2931K . .€122,88 (Up to 150bhp, flow rate; 32 gal/hr, 4.5-7 psi, unions: 8mm x 1/8 npt).
- Solid state fuel pump only, fast road MGS2931€72,00 (Up to 180bhp, flow rate: 34 gal/hr, 7.0-10.0 psi, 1/8 npt threads).

Fuel pump unions

Use with the listed fuel pumps, please check thread and pipe size before ordering.

- Straight union 1/4" (6mm) 1/8 npt FPA903B €2,88
- Straight union 5/16" (8mm) 1/8 npt MOC1604 €5,64

BRASS FLOAT FOR FUEL SENDER UNIT

These brass fuel float alternatives will work with original Smith's sending units (will not work with early Smith units with soldered metal floats). They replace the original plastic ones and do not react to the additives used in fuels nowadays.

- Brass float, fuel tank sender unit 360-646 €16,56

ETHANOL PROOF FUEL HOSES

Modern fuels contain ethanol to help enhance the octane rating, reducing the risk of knock and pre-detonation, and tends to burn cleaner than straight petroleum. This comes at a price however, ethanol in fuel dissolves rubber fuel lines causing premature failure, and in worst case scenarios, fire due to highly flammable fuel coming into contact with possible sparking electrical wires or hot exhaust systems. As ethanol is becoming more and more prevalent in modern fuels, the need to upgrade to ethanol proof fuel hoses is obvious and essential.

Mocal Stainless Steel Braided Ethanol Proof Fuel Hoses

These fuel hoses are rated for 100psi and unlike rubber hoses, won't deteriorate with the presence of ethanol in fuel. Sold per meter.

- Fuel hose 1/4" GFH1025XB **€31,08**
- Fuel hose 3/8" GFH1037XB **€40,68**
- Fuel hose 5/16" GFH1031XB **€31,80**

GATES ETHANOL PROOF FUEL HOSES

Gates "Barricade" fuel hose can accommodate any fuel used with a conventional carburettor, and exhibits extremely low permeability.

- Compatible with ethanol, methanol and all blends of petrol and alcohol.
- Achieves five times less fuel vapour permeation than conventional hoses.
- Rated for use to 50 PSI, for any carburettor application
- Rated for temperatures from -40°C to 125°C
- Not suitable for high pressure fuel injection, can be used on the low pressure fuel return
- Sold per metre

- Gates Barricade fuel hose, 1/4" ID (per metre) . GFH1025X. **€9,84**
- Gates Barricade fuel hose, 3/16" ID (per metre) GFH1018X. **€9,36**
- Gates Barricade fuel hose, 5/16" ID (per metre) GFH1031X. **€12,24**

ALUMINIUM FUEL TANK

Lightweight aluminium fuel tank. Fits Austin-Healey 100-4 (BN1-BN2) or 100-6 BN4 (from (c)68960) to 3000 BJ8.

- Fuel tank, aluminium (BN1-BN2) 849-075 **€775,20**
- Fuel tank, aluminium (BN4 from (c) 68960 to BJ8) 11B2375A. **€700,80**

CLASSIC GOLD FUEL TANK

There have been many suppliers making Big Healey Fuel Tanks over the years, most of them being of adequate quality. Some problems were just cosmetic, other problems were more significant such as leakage. Moss' Quality team decided to put an end to all of these issues and offer this new tank. Includes the following features:

- Zinc plated steel for rust and corrosion resistance
- High quality welds
- Correct dimensions and shape
- Proper placement of the brackets for the mounting straps
- Filler neck placement and angle
- Fuel outlet size and orientation
- Properly tapped and spaced holes for sending unit
- Bung for drain plug threaded to accept the OE plug

The attention to detail in the manufacture of this tank means a quick and easy installation. An inferior, lesser quality tank will take far more time to fit. It's Zinc Coated Plate which is same as Galvanized for both side (outer and inner).

- Fuel tank, steel (BN4 from (c) 68960 to BJ8) ... 11B2375 **€408,00**

TEFLON THROTTLE SHAFT BUSH SET

Improve throttle response! Replace the original felt or rubber bushings in a loose and sluggish throttle linkage with our Teflon upgrades

- Throttle shaft bush set (BN4-BT7) 021-822 **€6,84**

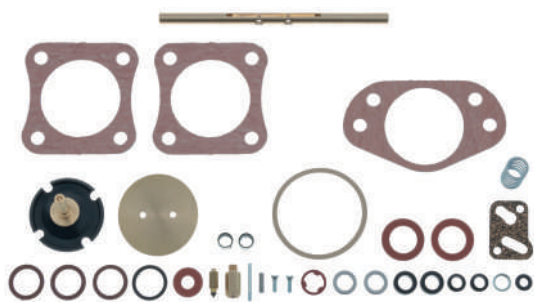

370-738

100M CONVERSION PARTS

Convert your 100-4 to full 100M performance specifications. Included in the upgrade are larger dual 13/4 inch SU H6 carburetors, factory style aluminum intake manifold, alloy cold air box, duct hose, gaskets and hardware. The carburetors are period correct except for the choke levers; for a completely authentic appearance, use the standard 100-4 jet linkage.

Carburettor set, HS6, pair.....	370-738	€2.311,20
Intake manifold set.....	366-760	€346,80
Cold air box	366-770	€147,60

WEBER CARBURETTOR CONVERSION KIT

High performance DCOE carbs are still the enthusiast's choice to extract maximum power from an engine. The kit includes manifolds, linkage and carburetors with ram pipes. Rejetting and venturi changes will be necessary to get the most out of your engine. We recommend that tuning be performed by an experienced tuner. Air filters are sold separately.

Carburettor conversion kit, weber 3 x 45 DCOE ..	222-530	€3.019,20
--	---------	-----------

RAM PIPE KITS

Upgrade your classic's performance with a high-quality ram pipe kit. The short ramp pipe kit is fitted with a screen making it ideal for a street application providing additional performance and an aggressive look under the hood. Sized specifically for SU carbs. Each kit is sold per carb.

- Ram pipe kit 1 1/2" - H4, HS4 & HIF4 carbs 372-566..... €69,36
- Ram pipe kit 1 3/4" - HD6 & HS6 carbs..... 372-567..... €78,48
- Ram pipe kit 2" - HD8 & HS8 carbs 372-568..... €74,40

RAM PIPES

Ram pipes (except period style) are fitted inside the air filter to help smooth the air flow into the carburettor. The shorter the ram pipe the higher up the rev range power is produced. If using with an air filter, a minimum clearance of 1 1/2" between the ram pipe and the filter case is recommended to ensure maximum air flow.

Ram pipes for SU carburetors

- SU HS4, period style, silver, 30mm long SFR2 €30,12
- SU HS4, period style, silver, 70mm long SFR8 €30,12
- SU HS4, piper style, silver, 30mm long SFR430 €47,40
- SU HS6, period style, silver, 30mm long SFR3 €30,12
- SU HS6, period style, silver, 70mm long SFR9 €30,12
- SU HS6, piper style, silver, 50mm long SFR650 €44,64

Ram pipes for Weber carburetors

These ram pipes are genuine Weber replacement products.

- 45 DCOE, silver, 16mm long KNSS1645 €59,76
- 45 DCOE, silver, 26mm long KNSS2645 €59,76
- 45 DCOE, silver, 39mm long KNSS3945 €59,76
- 45 DCOE, silver, 60mm long KNSS6045 €48,60

CARBURETTOR BALANCER

This carburettor balancer is used to equalize the airflow between multiple carburetors.

- Flat type..... MM386-200... €58,44

WZX1177RP

OVERSIZED SHAFTS FOR SU CARBURETTORS

Worn throttle shafts and carburettor bodies cause bad idle and uneven running. This can be remedied by replacing your carburetors or by reaming out your carburettor bodies and fitting oversize throttle shafts.

- Oversize throttle shafts for HS4..... WZX1177RP . €28,92
- Oversize throttle shafts for HS6..... WZX1178RP . €28,92

MINIATOR ALLOY WHEELS

Offered as an alternative to wire wheels, these MiniLite style alloys are an ideal way to add period sporting style to your classic. Available in 15" x 5.5" with a silver finish. The wheels are sold individually and are for fitment to splined hubs only.

They can be used in conjunction with our centre lock hub conversion kits to convert your conventional steel wheel rear and front hubs to accept splined hubs, enabling the fitting of either chrome wire wheels or centre lock alloy wheels. Our kits contain everything you need to convert to centre lock wheels, including full instructions, splined hubs and all the necessary hardware, chrome spinners and a copper hide mallet. Our hub conversion kits do not contain road wheels.

Silver, 8 spoke, aluminium, 5.5"x15", (3000)	GAC8255X	€318,00
Centre lock conversion kit, 2-eared, (3000)	GAC7049X.....	€432,00

MWS WIRE WHEELS

An essential part of a British classic sports car's styling was the fitment of wire wheels. Whether fitted as standard or not, a set of chrome wire wheels will not only enhance the appearance of your car, but also the value.

All chrome wire wheels are manufactured using stainless steel spokes and nipples.

MWS WIRE WHEEL & TYRE SETS

Wire wheels are synonymous with classic British cars, and a set of new wire wheels really enhances the look of your classic. Our range of wheel & tyre packages are assembled by the wire wheel specialists, Motor Wheel Services (MWS), and supplied as a set of 4 wheels & tyres ready to fit on your car. MWS have done the hard work for you. Each set of wheels & tyres is assembled & balanced by their tyre fitting specialists and inflated.

Balancing a wire wheel is a specialised operation and most modern tyre fitters do not have the correct balancing equipment to mount the wire wheel centre on the balancing machine. The centre needs to be mounted in the correct position to ensure that the readings on the machine are accurate and the correct balance weights are added. MWS has all the correct equipment to ensure that the wheel is perfectly balanced and ready to fit.

Please Note:

- Wheel & tyres sets are supplied with 4 wire wheels with 4 matched tyres.
- Tyres are inflated – Please refer to the workshop manual or handbook for correct tyre pressures and set accordingly.
- Spinners are not included with the tyre and wheel set.
- Unless specifically requested all wheels & tyre packages will come balanced to the inside.
- Wire wheel & tyre packages can be supplied in 4-5 days. Subject to availability.
- Original wire wheels for 100-4 and 100-6 models were 4” wide, but 4.5” or 5” can also be installed like 3000 models.

PLAIN WHEEL SPINNERS

All our centre lock wheel spinners are made from the highest quality materials and are precision engineered to ensure an accurate fit. We have 3 different styles to choose from - octagonal, 2 eared, or 3 eared. Two and three eared spinners can be fitted with a hammer or spanner, octagonal spinners require a spanner. Please check local regulations for eared spinners. Sold individually.

Disc wheel hub cap 031-312..... €69,84

WHITE WALL TRIMS

A popular accessory in the past were white wall tyres, unfortunately if you can find them now they tend to be made for the US market and of a much harder compound than European tyres. However, we are able to supply a rubber ring which is sandwiched between the wheel rim and the tyre wall, recreating the look of white wall tyres but allowing the use of quality modern tyres.

Measurements:

- Seating lip: 10mm
- Black section: 20mm
- White section: 12mm

452-755

WIRE WHEEL INNER TUBES

Using the correct size of inner tube will reduce tube failures and heat build-up within the tyre. Creating an air tight seal on a wire wheel can be somewhat difficult, making inner tubes necessary. To prevent the spoke nipples from piercing or chafing the tube, the fitting of a rim band is highly recommended.

- Inner tube, 15" for 155/165 tyres 452-755 €24,96
- Inner tube, 15" for 175/185 tyres 452-765 €39,96
- Rim band, 15" 452-750 €24,00

- Mild steel, 6.45", outer 7H1805 €6,48
- Mild steel, 5.01", outer 7H1806 €6,48

WIRE WHEEL TOOLS

The use of a soft-faced hammer is essential if you do not want to damage chrome plated spinners when removing or fitting centre lock wheels. We have a choice of three soft hammers. Extra long spanners are also available, providing much greater leverage for spinners and therefore easier fitting. To help keep your wire wheels looking like new we recommend you use our specialist cleaning kit. We also supply a special lubricant to help keep the splines in good condition.

- Hammer, copper & hide C27290 €49,32
 - Hammer, copper faced, 453g (1lb) 386-000 €30,60

H4 LED HEADLAMP CONVERSION

Developed for H4 (Semi-Sealed) style headlamps, the Stella Lux LED conversion represents a technological breakthrough for classic car owners. Lighting levels of 3000 Lumens per bulb mean these can be up to three times brighter than a standard H4 halogen bulb. LEDs emit a bright white 6000K colour and deliver vastly improved road presence and visibility for a safe confident driving experience, no matter the conditions. The kit includes a pair of premium quality 25W Lumileds Luxeon Z ES LED H4 light units with a 10,000+ hour lifespan, and low load plug-and-play dual polarity drivers. We also offer this kit with two H4 style WIPAC headlamps. Keep your classic styling and have better lighting; you get the best of both worlds with this easily installed upgrade..

Headlamp conversion, H4, LED 171-250.....€145,92

PERIOD STYLE LAMPS

BEZEL REMOVAL TOOL SET

The round bezels on most Lucas Switches have two slots, and nobody has the special tool you need to take them off. Using a screwdriver results in a scratched dash and colourful language. These tools have two teeth for the slots in the bezels and are made from hard steel so the teeth will last; critical for this application so you don't mar your bezels. The set includes tools for 3/4" diameter and 1" diameter bezel nuts.

Bezel removal tool set..... 384-960..... €28,68

ELECTRONIC FLASHER UNIT

If you are upgrading any of your indicators to LED bulbs, then you will need to upgrade to an electronic flasher unit. The LED bulbs draw such little power that they struggle to make a mechanical indicator flash.

2 terminal GFU2124XL.. €21,24
 3 terminal GFU2103XL.. €23,04

TOWING EYE KIT

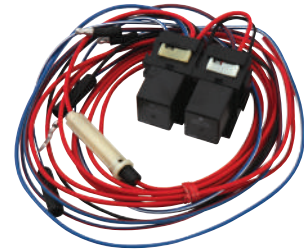

031-426

To meet Canadian requirements, these towing Eyes were originally fitted to BJ7s from approximately January 1963 (H-BJ7-20880 on) and all BJ8s. While intended to facilitate towing, these additions were quickly recognized as ideal tie-down brackets when transporting with a trailer. Because the holes selected for the towing eyes are in the same relative location on every Healey frame, these brackets will fit on every big Healey made from the BN1 through the BJ8. These are black-powder coated for an original look and durability. We also have a set of towing eye/tiedown brackets for the rear (#267-522).

Towing eye kit, front, (BN1-BJ8) 031-426..... €39,48
 Towing eye kit, rear, (BN1-BJ8 to (c)26704) 267-522..... €48,96

117-515

HEADLAMP RELAY KITS

Fitting halogen headlamps puts high loads on electrical components. These kits allow easy installation of relays into the headlamp circuit allowing for the high current circuit to be run through the relay. Fitting relays in headlamp circuits protects your wiring and reduces the resistance in the circuit allowing full power to the lamps. Kits include relays and fittings. The single relay kit can also be used for wiring spotlamps, horns and other electrical accessories.

Relay kit, headlamp, 2 relay 117-515..... €55,08
 (Inc: 2 relays, pre-wired relay holders, fitted terminals, fittings & instructions).
 Relay kit, headlamp 1 relay GAC4027..... €19,80
 (Inc: 1 relay, non-assembled wiring, terminals & fittings).
 PVC tubing, black, pre cut, metre..... 504806 €3,48

NUMBER PLATE LAMP WIRING HARNESS

This license plate lamp harness incorporates an inline fuse that effectively prevents a short in the license plate lamp from impacting the vehicles entire wiring harness. This was a common problem for all Austin-Healey's from the beginning of production in 1953 to late BJ8 (B.85964) when the issue was at last addressed. This harness provides a quick and inexpensive solution to what could become a very major problem.

Number plate lamp wiring harness, with fuse..... 356-375..... €19,80

CAR COVERS

Protecting your cherished classic with a car cover will help to keep the paint, hood and brightwork in the best possible condition and safe from the elements. Whether you need a cover to keep the dust off your car whilst in your garage, a lightweight cover to take to the shows and occasional use, or a cover that provides weather protection for cars kept outside all year round. Moss has the perfect car cover to fit your car!

Weatherproof outdoor covers

Our range of outdoor weatherproof car covers are manufactured from breathable fabrics. They feature double-stitched seams throughout, with neoprene elastic sewn into the front and rear hems. Fitted with reinforced, scratch-proof grommets for tying down. Note: No car cover is completely waterproof. Simply choose the fabric to suit your requirements: Mosom Plus or Ultimate.

Mosom Plus outdoor cover

Our range of Mosom outdoor weatherproof car covers are manufactured from breathable fabrics with double-stitched seams. The Mosom Plus is rain resistant, yet breathable and features a multi-layer polypropylene fabric which remains soft and pliable in all weather conditions with a soft lining. Fitted with reinforced, scratch-proof grommets for tying down. Recommended for short-term outdoor use.

Car cover, Mosom Plus..... GAC2011X ..€156,12

CRUSH GRAIN, EVERFLEX VINYL & STAYFAST CANVAS HOODS

Our hoods are manufactured to the exact original specifications and patterns, and are available in several different materials. Stayfast cloth, Everflex vinyl and Crush grain vinyl tops are made by Robbins Auto Top Company in the U.S.A. The Everflex Vinyl hood material is made in England by the original manufacturer and imported by Robbins, and are as close to original as possible. All necessary fasteners are included with each hood.

Stayfast cloth is engineered for high tensile and tear strength, but the fabric stays soft, supple with tightly controlled stretch characteristics to ensure that hoods do not sag or otherwise lose their shape. Stayfast cloth resists fading and shrinking better than vinyl and does not stiffen up at lower temperatures.

Everflex vinyl is the original material from England. Black and blue Everflex now have a grey inner lining, while tan has a tan lining. If you want your hood to be as close to original as you can get, this is the material to consider.

Crush grain vinyl is the best American vinyl with a subtle random grain pattern. Uses Haartz Supreme 36-oz. pinpoint-grain vinyl (backed with pre-shrunk cotton cloth).

HOOD FRAMES

The hood frame is the key to purchasing the correct hood for your Austin-Healey. Many of the hood frames are interchangeable, and many times the previous owners have changed them out, much to the amazement and chagrin of the current owner. Never assume your hood frame is original.

Hood frame (BN1, BN2).....	453-670.....	€375,60

LIFT THE DOT HAND PUNCH

For professional installers, this tool would make a fine car club tool box addition. Punches centre hole and prong holes for installation of Lift-the-Dot fasteners to make installation of hoods and tonneau-covers a cinch.

Lift the dot punch	226-105.....	€104,16
Sock and clinch plate, single.....	LFS100S.....	€2,64

234-005

234-000

GEAR KNOBS

Our gear knobs are just the right size and feel, and made of elegant walnut wood or trimmed in black leather and topped with a medallion displaying the Austin-Healey logo. The gear knob is designed with a hard plastic insert that accommodates a range of gear lever sizes and thread widths. By applying pressure on the gear knob while twisting it onto the lever, the plastic insert will thread and firmly secure itself. Prior to installing the gear knob, screwing on a jam nut is recommended. When the gear knob is positioned where you want it, tighten the jam nut to the base.

Gear knob, leather, black	234-005.....	€21,36
Gear knob, wooden.....	234-000.....	€20,40

GLB987LN

LED DASH BULBS

Give your classic car the benefit of LED dash bulbs. Bright white LED dash bulbs illuminate your gauges very well and are a replacement for the standard incandescent bulb (GLB987). LEDs burn cooler and last much longer than standard incandescent bulbs! LED light is not dimmable. LEDs should not be used as turn signal indicators or for the red alternator light on the dash. Sold individually.

Negative ground	GLB987LN ...	€13,32
Positive Ground	GLB987LP.....	€9,84

GLOVE BOX LOCK

After many years of these Austin-Healey BJ8 Glove Box Locks being virtually impossible to find, we located a quality source and are now able to offer them. These are a high quality, made as original with push button opening and includes two keys.

Glove box lock (BJ8)	633-740.....	€124,32

Moto-Lita

MOTO-LITA BOSSES & ACCESSORIES

The adjustable column steering wheel hub is fitted with a hand nut and collet allowing the wheel to slide in and out.

Adjustable Column: The adjustable boss, which comes with a new hand nut and collet, is designed to be used with an original style control head (horn/turn signal switch). If for some reason you do not intend to use a control head, the horn push can be used to cover the resulting hole. (Please Note. The horn push cannot be made operational).

Non-Adjustable Column: The non-adjustable hub is supplied without any horn push or cover for the centre. It is designed to use the horn push as a non-operational cover. The hub can however be easily machined to accept the original control head.

- Boss, non-adjustable column MLW1117B6... €144,60

VINYL & LEATHER ARMRESTS

In order to restore the interior of your Austin-Healey to its original quality, we manufacture early Healey upholstery kits in our own Upholstery Shop with an eye on quality control every step of the way. We use only the finest materials in our kits; our leather is tanned and vat-dyed to the highest standards to ensure durability. Our vinyl's have been selected for their colour & grain style. Each piece is cut by our skilled craftsmen using patterns painstakingly developed by us.

FRONT & REAR SEAT COVER KITS

Restore the interior of your Austin-Healey to its original design and high standards with Moss handcrafted Front and Rear Seat Kits. Manufactured in our own upholstery shop, these kits have been patterned from the early Healey upholstery kit samples, and made by skilled craftsmen with the aid of modern technology for exacting standards. With an eye on quality-control every step of the way, we have used only the finest materials in our seat kits. Our leather is tanned and vat-dyed to ensure durability, and the vinyls have been selected for their color and grain style. We're so confident in the quality of our upholstery items that we guarantee 100% satisfaction or your money back upon return of the uninstalled kit.

COMPLETE CARPET SETS - LHD

Renew your interior with Moss upholstered carpet sets, rated highly for quality and authenticity. The reason they are the most authentic in the market is because we've consulted with the foremost experts in Austin Healey restoration and Concours Committee to make sure our materials, patterns and techniques are as true to original as possible. Each complete kit includes the correct rubber heelmat and all necessary snaps and studs.

100-4 – We offer two carpet sets for the 100-4. For those interested in the original look, you'll want our carpet and Armacord kit. Armacord used to match the color of the carpet, but is only available in black today. The current solution is to dye the Armacord to match the red, blue or honey tan carpet. This is common practice and one that has been performed on boot liner kits for years. If you're interested in a custom look, we also have an all carpet version (not in black) to upgrade your interior to carpet throughout.

100-6 & 3000 – We offer a choice of original style or deluxe. The original style is exactly that, made in every way to original specifications with correct binding. Our deluxe kit includes a bound edged 2-piece tunnel carpet with a flap for the transmission dipstick access.

Works Healey's in Details

Written by Graham Robson, this books tells the story of Donald Healey's introduction of the cars and his make into the world of rallying and racing, from the early Healey Elliott of the late 40's through to the Austin-Healey Sprite in 1967. Detailing the competition versions of the 'big Healey's' with legends such as Pat Moss, Timo Mainen and Paddy Hopkirk behind the wheel. Robson describes the career of each works car individually including drivers, entries and results, with countless illustrations and colour photography of surviving examples. For some, a trip down memory lane, and for others, an eye opening book into the world of competition Healey's.

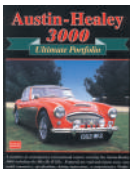

Works Healey's in detail..... MGL0348 ...€82,68

Austin-Healey 3000 Ultimate Portfolio

An excellent collection of contemporary reports featuring road tests, driving impressions, rallying, touring and much, much more. Austin-Healey 3000 owners will find this both an interesting read and an excellent addition to their bookcase.

RETROMOD SPEAKERS BY RETRO SOUND

The RetroMod range of speakers from RetroSound has been designed to compliment their range of Classic radios and have been manufactured to meet the demands of modern high performance amplifiers.

Dual voice coils (DVC) speakers

This system allows for 2 stereo channels (left & right) to be connected to the same single speaker. This means that originality can be maintained on cars where a single speaker was fitted in the centre of the dash or rear shelf. These speakers are supplied individually without mesh grilles, to fit existing mountings.

- 6.5" dia 3 way, DVC, no grilles (each) 230-505 €82,44
- 5" x 7" 3 way, DVC, no grilles (each) 230-545 €90,60
- 6" x 9" 3 way, DVC, no grilles (each) 230-510 NA

Single voice coils (SVC) speakers

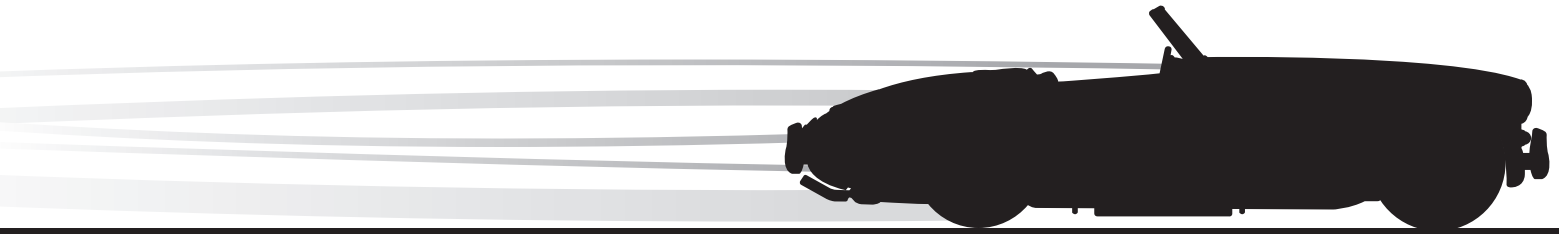

The SVC range of speakers is a standard configuration single channel speaker for normal installations (left & right mounted speakers, such as doors or dash). These speakers are available in a range of sizes and specifications, see our website.

- 4.5" dia 2 way, 40W max, with grilles (pair) 230-535 €118,68
- 5" x 7" 3 way, 60W max, with grilles (pair) 230-540 €121,92
- 6" x 9" 3 way, 100W max, with grilles (pair) 230-530 NA
- 6" x 9" 3 way, 100W max, with grilles (pair) 230-531 NA
- Surface mount, 4" 2 way (pair) 230-565 €70,56
- Speaker pods, 4" x 6" (pair) 230-570 €189,00
- Speaker pods, 6.5" (pair) 230-575 €255,60

RetroMod 8" Subwoofer

The compact design and powerful bass response make this ideal for under seat mounting and numerous other in-car applications. The rigid die cast aluminium chassis and powerful Class D amplifier allows this sub to reproduce low frequencies down to 35Hz.

- 8" Subwoofer with internal amplifier 230-550 €273,60

Identification Numbers

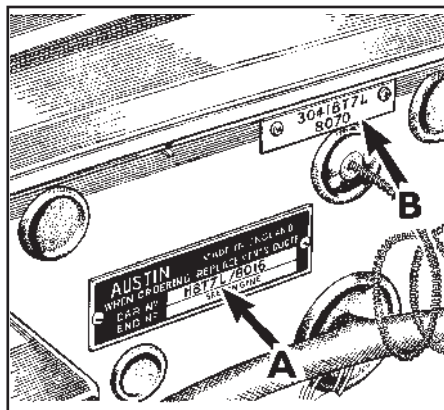

When ordering parts, it is essential that your car is identified exactly, by model year and serial number. Since many part changes were made during model years, the car number, engine number and body number provide the only positive identification. Quite often a car's title will not show the correct model year. Before ordering parts, please use the space provided below to copy the applicable numbers from your car. Use of these numbers is the best way to insure that you order and receive the correct parts. Wherever possible, we have listed part applications by car number(c). In some cases, we had to use the engine numbers(e) or body numbers(b).

The Engine Number is stamped on a plate secured to the front left-hand side of the cylinder block. (100-6 and 3000 only.) The 100-4 is numbered on the right-hand side of the block.

The Gearbox Number is stamped on the right-hand side of the gearbox below the oil level dipstick (except BN1).

The Car Number (A) and the Body Number (B) are stamped on plates on the right-hand side of the firewall.

Year	Model	Starting Numbers:		Finishing Numbers:		Remarks

Note: These pages list only the major items in each area, such as body work, electrical and brake components.

In many cases minor fittings, clamps and linkages etc... are not shown. In most circumstances Moss can supply both an OE (Original Equipment) part or an aftermarket part. The aftermarket part offers a high quality part but usually at a reduced price and in certain circumstances replaces the OE part when no longer available.

The aftermarket part is indicated by a letter "Z" at the end of the part number.

Note: pump components will fit original pumps only.

Original Type Hose Clamps

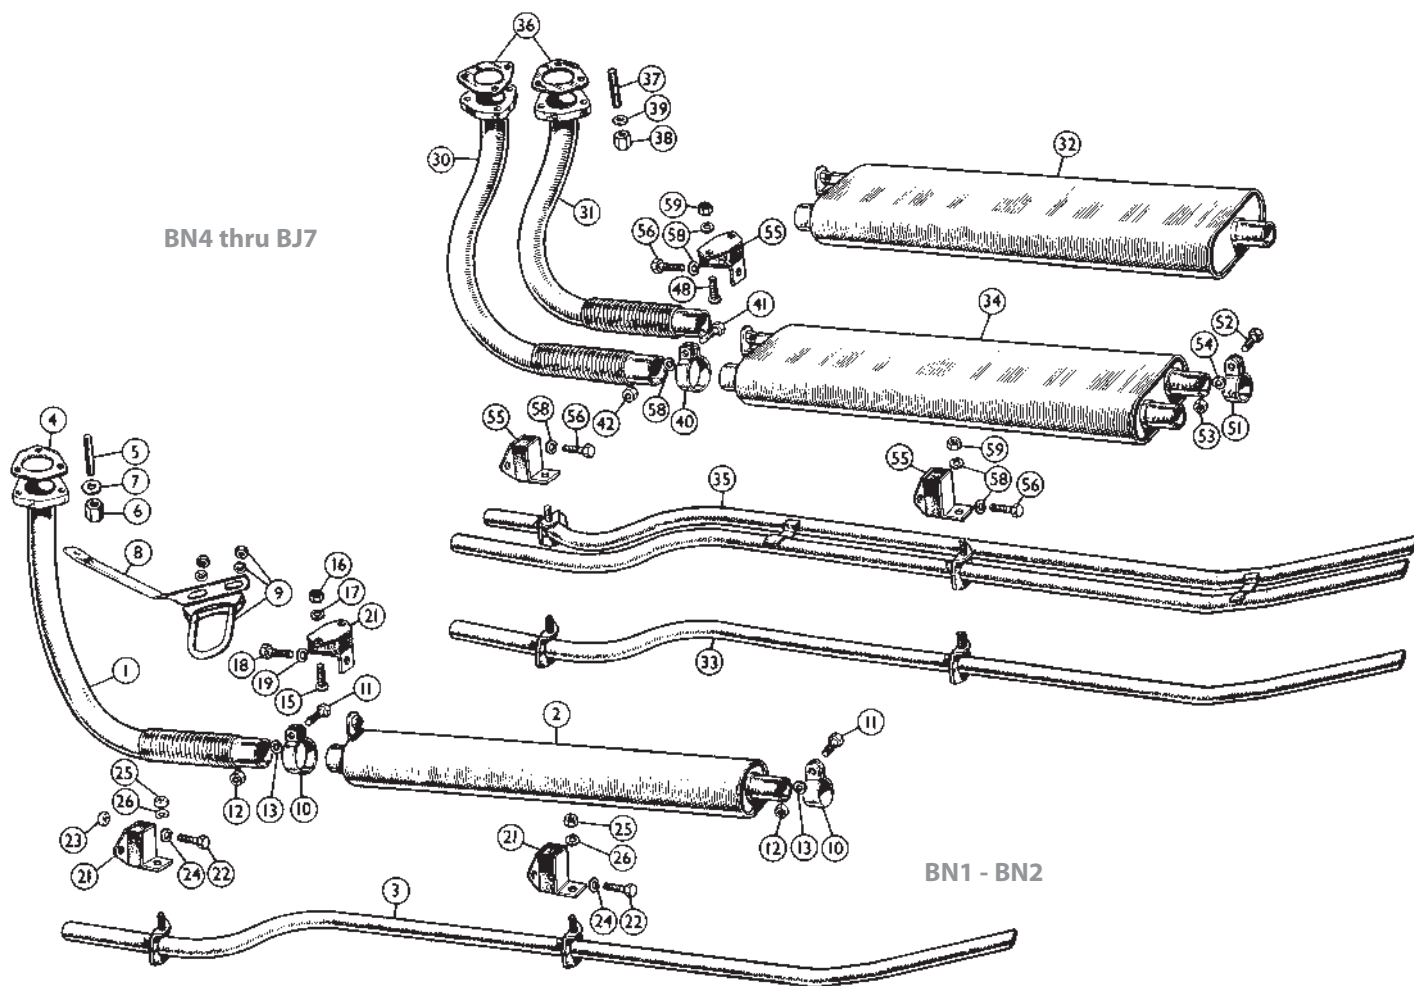

These wire-type clamps are similar to the original clamps used on most Austin-Healeys. Zinc plated for long-lasting looks and durability, they're necessary for a correct restoration. Just measure the outside diameter of your hoses to determine which ones you need.

Lineup at the start of the Tulip Rally, Noordwijk, 4/22/64

The Morely brothers on the 1963 Alpine Rally

One of the several highly successful trips to the Bonneville Salt Flats by Austin-Healeys. This car set 24 hour records. Pictured from left to right are Carrol Shelby, Roy Jackson-Moore, and Donald Healey.

Gearbox Mountings BN1

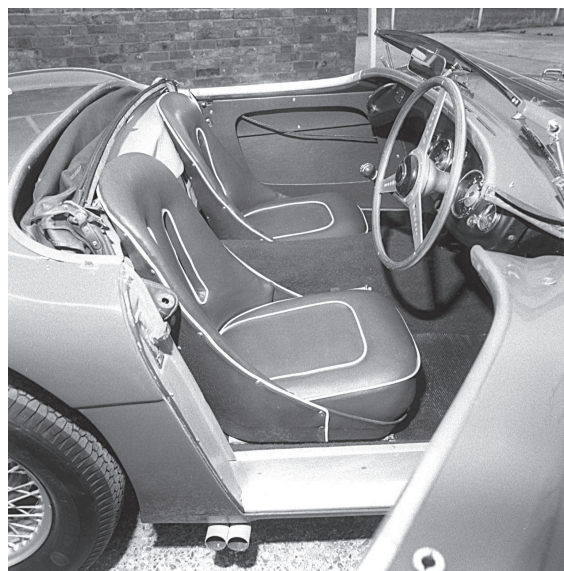

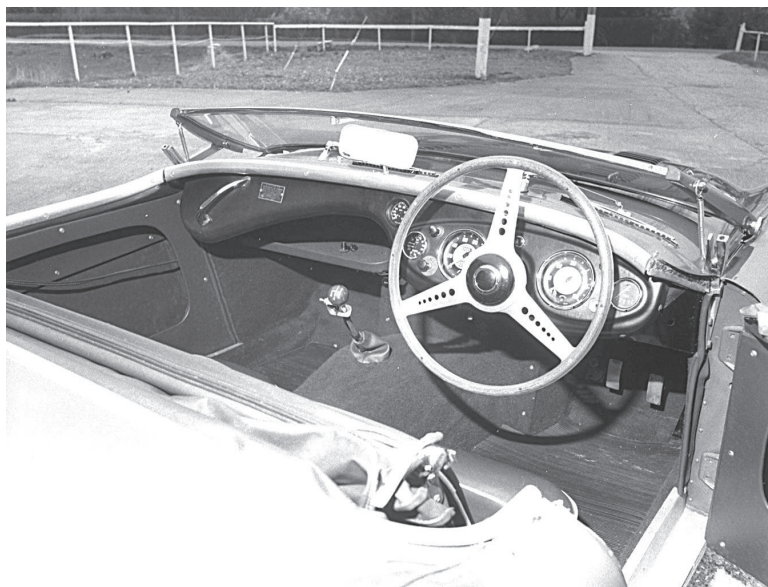

100S

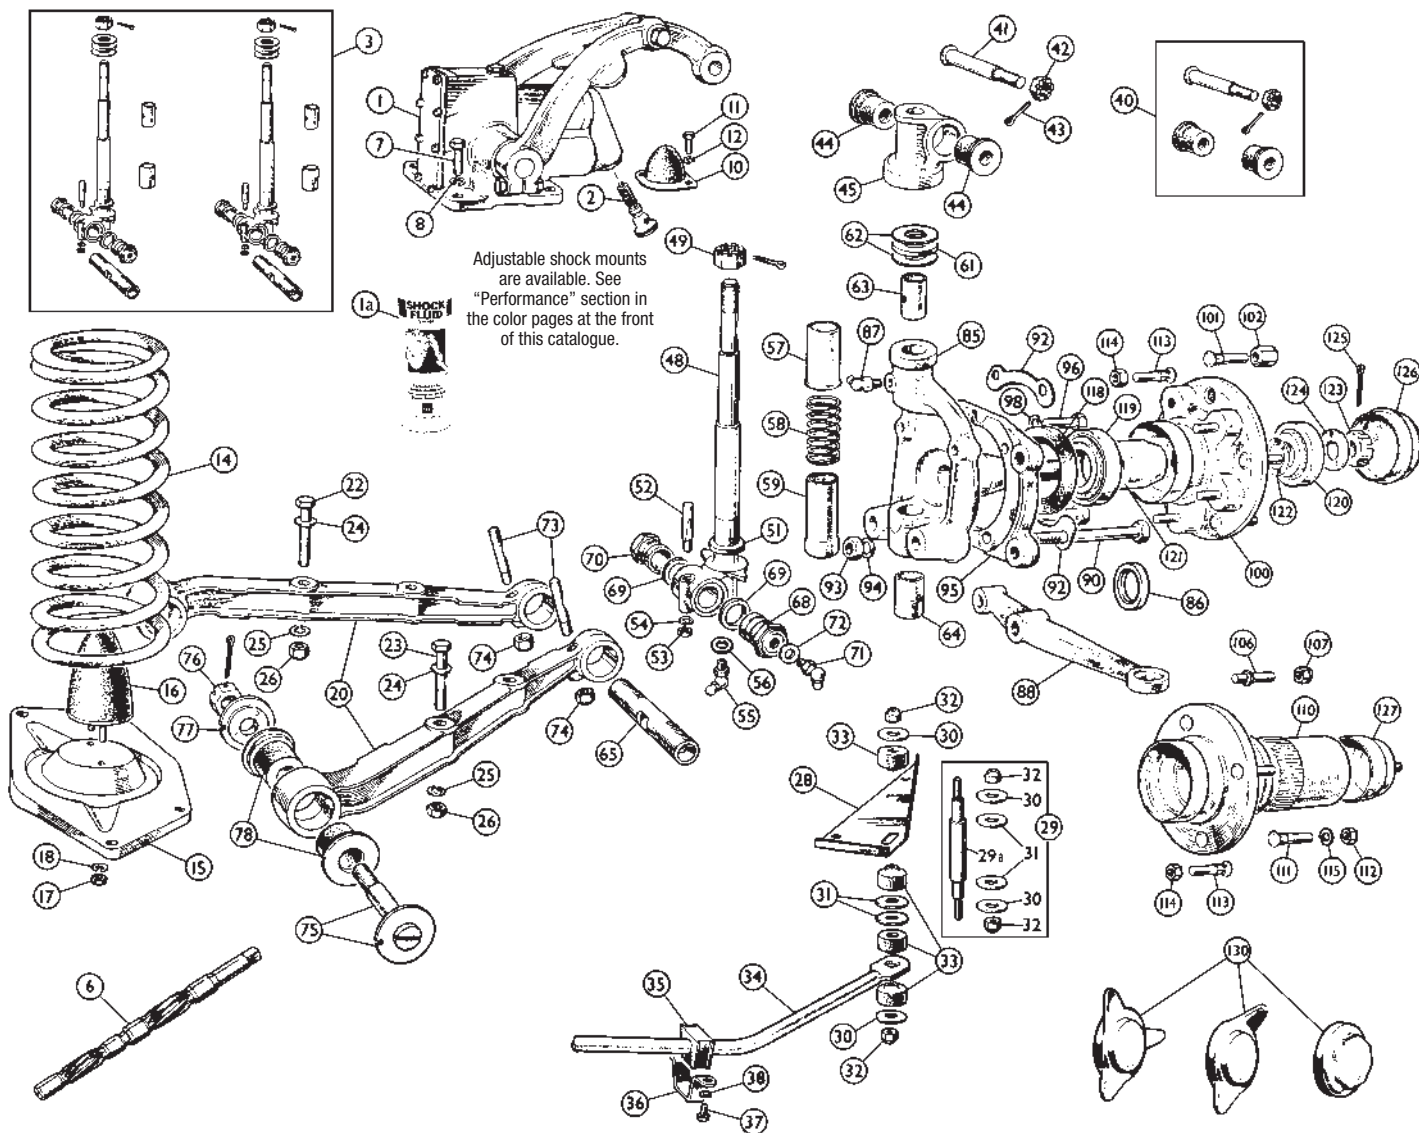

The 100S is the most desirable Austin-Healey ever produced. A total of only 55, including 5 factory development cars, were produced during 1954 and 1955. The car pictured here is the third of those five, differing from "standard" 100S in retaining the top frame and stock windscreen. Most but not all 100S were finished in white over blue.

Exterior body panels of the 100S were aluminium alloy. Hundreds of detail modifications from the standard BN2, including crossflow cylinder heads and 4-wheel disc brakes, made these cars very special indeed.

Note the special vented seat backs.

Rear Axle early BN1 spiral bevel type

Earlier BN1 series cars used the spiral bevel type axle described here, whereas later BN1s used the hypoid type shown overleaf. The most blatant distinguishing feature of the spiral bevel axle is that each wheel hub contains four studs, rather than the later five.

Wheel Notes

100-4 BN1

All BN1s came from the factory with painted 48 spoke Dunlop wire wheels, 15" X 4". 60 spoke 15" X 4.5" wire wheels or 72 spoke 15" X 5" wire wheels will fit so long as the car has the original 1 7/8" wide brake drums. If the front brakes have been converted to the later 2 1/4" wide brake drums, the 60 spoke wheels will not fit. If 60 or 72 spoke wheels are used, the tyres must be carefully selected for fit, especially if the car still has the original BN1 wings (with smaller wheel openings than the BN2 wings). Many BN1's left the factory with BN2 wings.

100-4 BN2, 100-6 BN4 & BN6

All BN2, BN4 and BN6 originally had 4J x 15" steel wheels. Factory optional painted 48 spoke 15" X 4" Dunlop wire wheels. 72 spoke 15" X 5" wire wheels will also fit. 60 spoke wheels will not fit the front due to the 2-1/4" wide brake drums interfering with the spokes.

3000 BN7, BT7, and BJ7 to 24366

Standard for all 3000's were 4J x 15" steel wheels, but most were fitted with the "optional" painted 48 spoke 15" X 4" Dunlop wheels. We suggest fitting the stronger 60 or 72 spoke wheels.

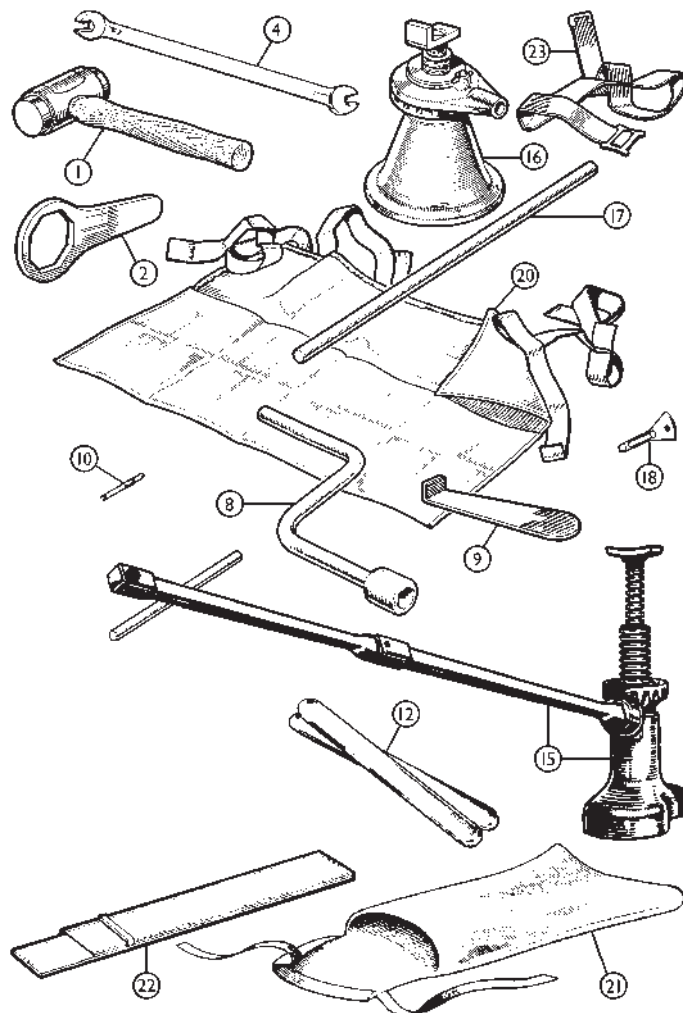

3000 BJ7 from 24367, BJ8

4J x 15" steel wheels were "standard", but most were fitted with the "optional" painted 60 spoke Dunlop wire wheels 15" X 4.5". The stronger 72 spoke wheels will also fit.

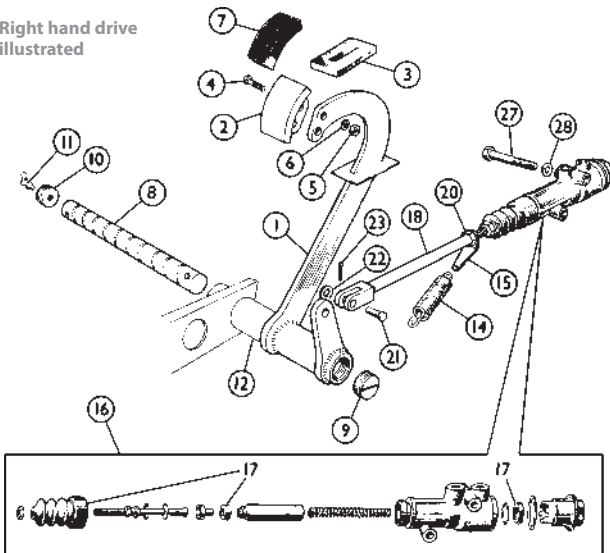

Original Equipment	100-4		100-6		3000 MK1		3000 MK2		3000 MK3		
	BN1	BN2	BN4	BN6	BN7	BT7	BN7	BT7	BJ7 to C24366	BJ7 from C24367	BJ8
Disc Wheels	Not offered		4J x 15, standard								
Dunlop 48 spoke, painted	15 x 4, standard		15 x 4, optional to BJ7 C24366						not offered		
Dunlop 60 spoke, painted	not offered									15 x 4.5, optional	
What Fits											
48 Spoke 454-610 Painted 15 x 4 454-615 Chrome 15 x 4	Will fit all cars, but loads generated by modern tyres make 60 or 72 spoke wheels a better choice if they will fit your car.										
60 Spoke 454-620 Painted 15 x 4.5 454-630 Chrome 15 x 4.5	Fits BN1	Will not fit on front because the brake drums are 2-1/4" wide.			Fits all 3000						
72 Spoke 454-665 Painted 15 x 5 454-660 Chrome 15 x 5	Will fit all cars, but the tyres must be carefully selected for BN1-2 to avoid rubbing, especially with BN1 wings.

77	51K4001	€7.44	BOLT, shear	2	

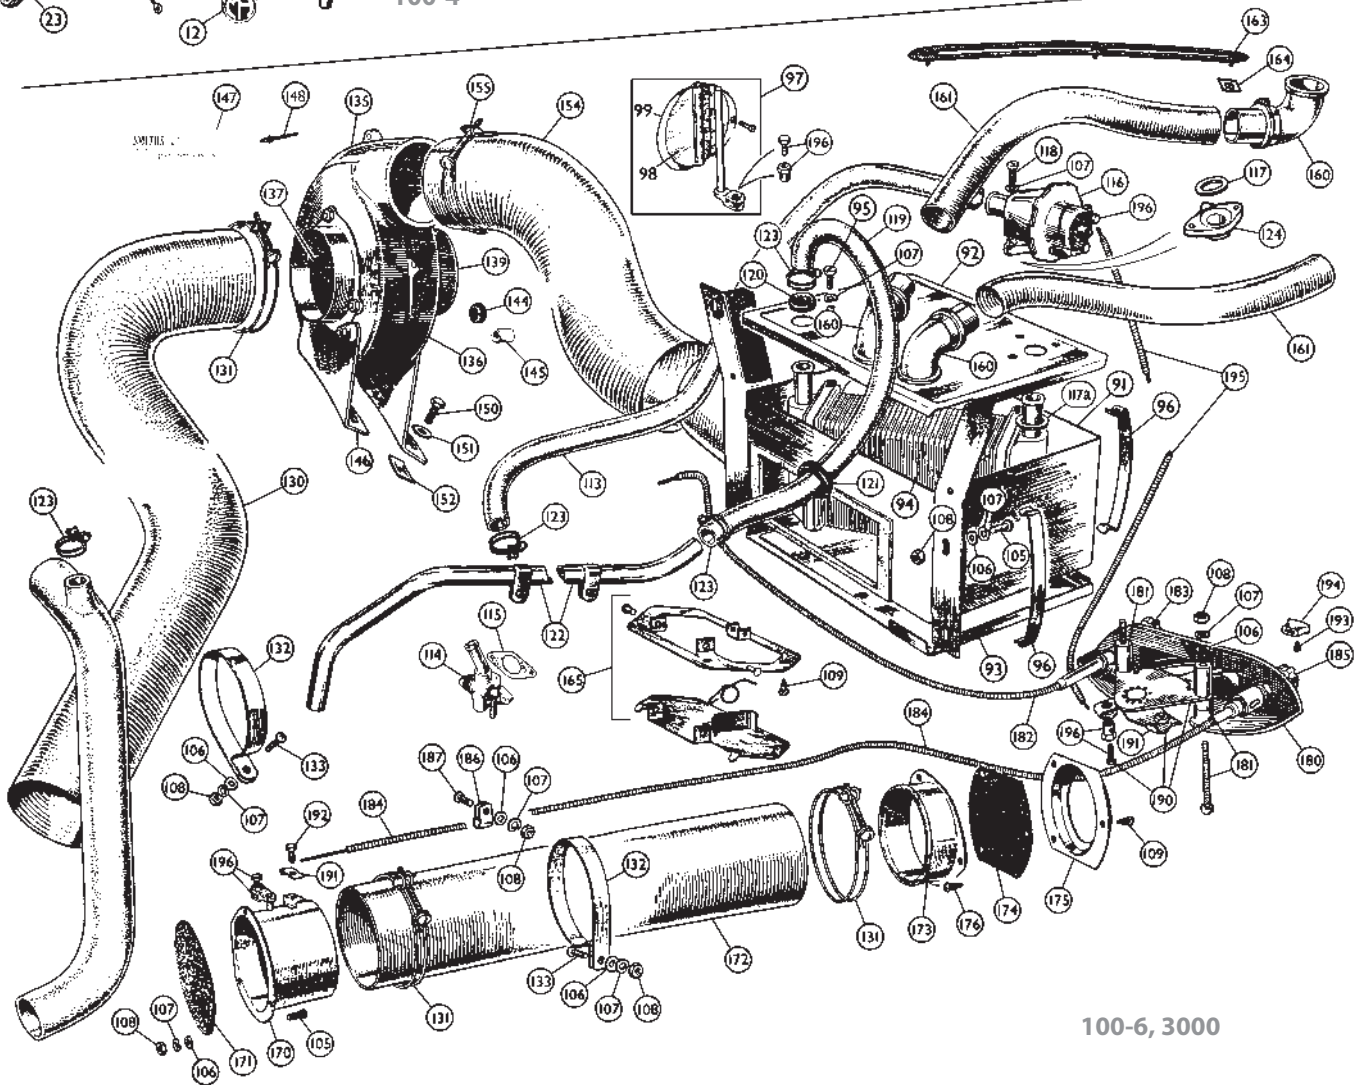

For battery cables see page 88.

Part Number	Price €ea.	Description	Req.	Details
Wiring & Fittings				
Moss wiring harnesses are complete except for battery and ignition cables, O/D sub harness, headlamp pigtails, and steering column wires. We offer lacquer braided wire as originally fitted to pre-BJ7s, or more economical PVC covered wire for all applications. Both types are bound by cotton braiding as original, and are color coded as original.				
New harnesses may have some non-original dash lamp sockets. These use wedge-base bulbs below.				
GLB504	€2.04	BULB, wedge base, 3 watt	A/R	} new wiring harnesses
GLB501	€1.44	BULB, wedge base, 5 watt	A/R	
1 ML691	€396.00	WIRING HARNESS, cloth/pvc	1	} BN1
357-170	€409.20	WIRING HARNESS, cloth/braid	1	
356-320	€331.20	WIRING HARNESS, cloth/pvc	1	} BN2
357-180	€403.20	WIRING HARNESS, cloth/braid	1	
MM356-330	€369.60	WIRING HARNESS, cloth/pvc	1	} BN4 to C.E.68959, BN6 to (c)3459
357-185	€459.60	WIRING HARNESS, cloth/braid	1	
MM356-340	€369.60	WIRING HARNESS, cloth/pvc*	1	} BN4 from C.E.68960, BN6 from (c)3460, BN7, BT7, BJ7
Does not include auto choke wiring for BN7 & BT7 from (e) 29D-H2864 - 6394.				
357-190	€501.60	WIRING HARNESS, cloth/braid*	1	} BJ8 to (b)76137 (Mar '65)
AHB6413	€405.60	WIRING HARNESS, cloth/pvc	1	
*Lacquer braid changed to pvc wiring gradually during BN7/BT7 production.				
MM356-355	€368.40	WIRING HARNESS, cloth/pvc	1	} BJ8 from (b)76138

196	24G1482K	€2.40	TRUNNION KIT, cables	4	

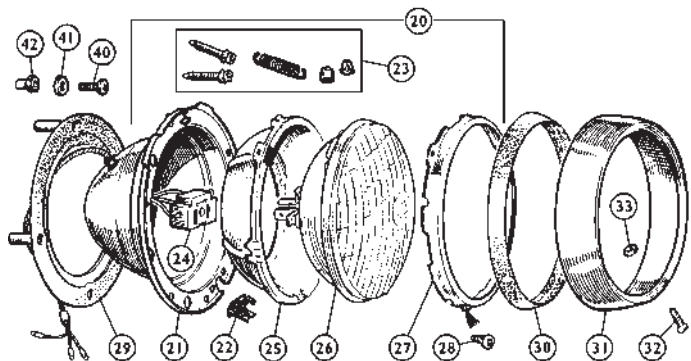

The heater hoses go under the defroster hoses, and they must cross. The hose from the heater valve goes to the valve on the side of the head, and the other from the right front of the heater box to the heater pipe on the manifold. If these hoses are connected the other way, the water will not flow through the heater valve into the heater. (Thanks to Norman Nock.)

Headlamp Notes

Although a great variety of headlamps was fitted to different Austin-Healey models at the factory to suit different markets and driving conditions, we have selected the two main U.S.A. versions, which appear to the left. It is believed that very few, if any, cars were sold in the U.S. with other than sealed-beam headlamps, as the distributor or dealers installed these until the factory began fitting them with the change to the two-adjuster units.

For those owners who prefer the attractive and popular "tripod" units, we are pleased to offer reproduction PL700 light units. The "PL" units are a higher performance version, and feature the attractive "Lucas PL" shield. Please note that tripod units are not DOT approved, and are not legal for street use where DOT approved headlamps are required.

Lamps 100-6, 3000
Lamps: BN4, BN6, BN7, BT7,
BJ7, BJ8 to (c)26704

(Lucas model 594)

The model 594 Lucas lamp was fitted to six cylinder Austin Healey cars in many different lens color and filament quantity permutations, not to mention on the front, back, or both. The Lucas model 594 lamp is often referred to as the 'beehive lens' lamp and fits with three fasteners into piercings in the bodywork.

Quantities for fitment have been omitted due to the numerous changes and varied usage. We hope you would know how many lamps your car should have fitted. To further aid identification, the overall diameter of the 594 lamp is 2 7/8".

Lamps: BJ8 from (c)26705
(Lucas models 691 and 692)

The other type of side, indicator or tail lamp used on the Austin Healey 3000 was the Lucas 691 or 692 model. This is easily distinguishable by its lens attachment of two studs and nuts. The lenses of these lamps are plastic, and the overall diameter of the lamp is 3-1/4".

BJ8s from May 1964 (c)26705 through March 1965 (b) 76137 had two front parking/flasher lamps with clear lenses and dual-filament bulbs (BHA4465).

From March 1965 (b)76138 the front lamp functions were split into separate lamps to comply with USA regulations. The new lamps had single-filament bulbs. The turn signal flasher lamp (BHA4477) had an amber lens, while the parking lamp (BHA4476) had a clear lens.

Lucas 691/692 Lamps

1	BHA4465	€35.64	SIDE/INDICATOR LAMP, front,	2	clear lens, 5/21W

Alloy Competition Body Parts

Great quality reproductions of aluminium alloy body panels similar to those fitted to the Works prepared race and rally cars can now be yours. (Works cars did not have flared wings.) Pick the ones which best suit your race or rally car. Works Healeys did not use flared wings with their 165x15 tyres on 4.5" wheels. Flares are required for use with 185x15" tyres on 72-spoke wire wheels. Professional fitting of these wings is advised.

All wings below marked T must be shipped by truck freight.

806-865	€1,515.60	FRONT WING, R/H, with vents	1] BN4 - BJ8
806-875	€1,515.60	FRONT WING, L/H, with vents	1

20	GHF331	€0.84	WASHER, locking	8	
21	NA	NA	BOLT, seat to tapped plate	4	} BN1 to (b)1001 on
22	GHF301	€0.60	WASHER, plain	4	
23	GHF332	€0.84	WASHER, locking	4	

Note: BN1 to (b)1000 had both seats mounted directly onto the floor. To adjust these seats, they had to be unbolted and re-mounted. BN1 from (b)1001 thru BN4 C.E.68959 had the driver's seat on adjustable slides, with a wooden spacer between each slide and the floor. The passenger's seat sat on one thick and one thin spacer on each side of the seat, and could be adjusted as the early seats. A factory option did allow for the fitment of seat slides on these seats, with the same mountings and hardware as the driver's seat.

BN1 - BJ7 Front & Rear Seat Kits

In order to restore the interior of your Austin-Healey to its' original quality, we manufacture early Healey upholstery kits in our own Upholstery Shop with an eye on quality control every step of the way. We use only the finest materials in our kits; our leather is tanned and vat-dyed to the highest standards to ensure durability. Our vinyls have been selected for their color & grain style. Each piece is cut by our skilled craftsmen using patterns painstakingly developed by us. We're so confident of the quality of our upholstery items that we guarantee 100% satisfaction or your money back upon return of the un-installed kit. Order free sample card #878-900 for samples.

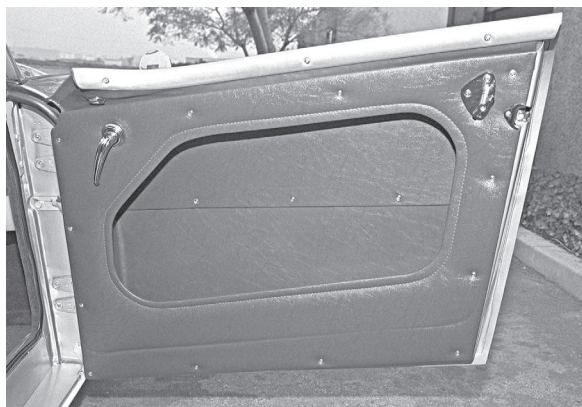

All front seat kits include covers for both front seats.

As original from the factory, our leather seat kits have only the seating/wearing surfaces in leather, with the non-wearing surfaces in matching vinyl.

Front & Rear Seat Upholstery Kits

Our seat kits are manufactured in England from top-grade materials, including correct chrome herringbone piping and all the important details like the small embossed squares on the standard front vinyl seat cushions. Our vinyl rear seat kits incorporate the correct heat-welded large square pattern just like the originals. As did the factory, we give you the option to upgrade to luxurious (and wonderfully aromatic) leather as well. On these kits, the piping matches the color of the seat. Whichever your choice, be assured that either will renew the interior of your Austin-Healey to original standards. You don't need to be an upholsterer to install a Moss kit either! The seat covers easily replace the old ones with no sewing needed. One easy weekend is all the time you will probably need to complete the task. (If you are at all timid about attempting such a project, order our instructional video part # 211-026, and see how the pros do it step-by-step.)

Order free sample card #878-940 for vinyl and leather samples.

All front seat kits include covers for both front seats. As original from the factory, our leather seat kits have only the seating/wearing surfaces in leather, with the non-wearing surfaces in matching vinyl.

	Black	Red	A-H Blue	Dark Blue	Light Tan†	Price

Complete Carpet Sets - LHD (cut pile carpet)

Made in our very own upholstery shop (except for Light Tan, which is English), these carpet kits are carefully patterned and cut for proper fit and easy installation. Each complete kit features the correct rubber heelmat, all necessary snaps and studs. "Orig. style" kits have a one-piece transmission cover, and are bound only around the shifter hole. "Deluxe" kits have a two-piece transmission cover with a dipstick access flap, and are bound on exposed edges. For free samples of our carpet material, order sample card #878-915.

Door Hood Rails, BJ8

Just like the originals, our complete assembled rails include the sheet metal base with a molded foam core covered in durable black vinyl with a grain that matches our interior kits.

858-158 €118.68

Be sure to see our complete listing of interior hardware, seat foam, seat frames and related items on pages 140-141.

BJ7 & BJ8 Upholstery Installation DVD

Follow a 4 hour installation of a trunk lining kit, carpet and panel kits, seat rebuilding and recovering, and a convertible hood. This DVD takes you through each process in step-by-step detail. You will learn the tricks the pros use.

211-026 €100.68

Convertible Hoods

We offer a choice of two premium vinyl materials, British "Everflex", which is as close as possible to the original, and a domestic crush-grain vinyl. We also carry Robbins Stayfast Cloth hoods. Stayfast is manufactured for Robbins using a 100% acrylic surface cloth laminated with a superior rubber formulation to a pre-shrunk cotton backing cloth. Stayfast is soft and supple to make installation of hoods easier, and with tightly controlled strength characteristics to ensure that hoods do not sag, billow or lose their shape over time.

All the necessary fasteners are included in our kits but they are not installed, as there may be variations in the locations of existing mounting hardware.

Although good results may be achieved by non-professionals, best results are achieved by a professional with experience with Healey hood cover installation. For this reason our hoods do not come with installation instructions.

The BJ7-BJ8 hood is a tricky installation, and we recommend that it not be attempted without first viewing and understanding the information in the #211-026 Soft Trim Installation Video.

Convertible Hoods

Robbins' Hoods Features:

Computerized Cutting - Gerber Cutter cutting technology to ensure all pieces are the correct shape and size.

Factory Designs Improved - Robbins improves upon factory designs by adding reinforcements, better heatsealing processes, and other proprietary manufacturing techniques to produce the highest quality hoods available.

Heatsealed Reinforcements - All seams are double stitched and heatsealed for extra strength and to prevent side to side shrinking. Seams will not bubble or fail over time as do glued reinforcements.

Innovation - Robbins has been granted numerous patents for their innovative designs and techniques. They are the industry leader.

Since 1943 - Their experience is unmatched in the industry. All of their products are still made in the factory in Ventura, California.

100-4 BN1, BN2

Hood frame is mounted to the inside of the cockpit using 3 large Phillips head screws. Chrome latches securing hood to w/s frame are on the outside of the w/s frame uprights. Must reuse the flat steel bar 34.5" long, found inside the rear edge of the hood. This hooks under the two rear retainers to hold the rear of the hood down. Side and rear of hood secured to car by tall turn-button fasteners at the hood of the B pillar. Two Tenax fasteners on each side, one on the wing, one on the rear shroud.

100-6 BN4 through CE 68959

Early BN4s were the first 4 seater Big Healey, and they were fitted with a complicated sliding & folding hood frame permanently attached to the body. All Longbridge BN4s built Sept 56-Aug 57 (6,045 cars) and the BN4s built at Abingdon from Nov 57-Apr 58 (4,241 cars) would have been fitted with the sliding/folding hood. Hood is secured with 12 Tenax fasteners and 2 turn buttons. The single plastic window is sewn in.

100-6 BN4 from CE 68960; 3000 BT7 through CE 1528

Four seaters. Removable hood frame, fits into sockets behind the door opening. Legs of hood frame bend outward sharply 9" from the tips. Same sockets were used to mount the hardtop. BN4 & BT7 hoods had 2 grey webbing straps, secured under the wooden front hood bow, and screwed to the rear bow. Hood is secured across the back with 12 Tenax fasteners and 2 turn buttons.

3000 BT7 from C.1529 on

Four seater. At chassis BT7 1529, (date unknown) legs of hood frame were modified. The bend disappeared, and the socket for the hood frame was mounted farther back on the hood of the rear inner fender well. BT7 hoods had 2 grey webbing straps, sewn to the hood and secured under the wooden front hood bow. They were not screwed to the hood frame.

100-6 BN6; 3000 BN7

Two seater. Removable hood frame attached to front header bow, collapsible cant rails over the doors. Ends of the legs had adjusting screws to adjust the tension. Bottom 2.5" of legs had cream colored plastic sleeves to protect the aluminium trim pieces around the sockets. Secured with 4 Tenax Fasteners.

3000 BJ7 through (B) 59371 (to approx. Apr. '63)

Four seater, roll up windows. Hood frame bolts to a flat-topped pillar near the B-post. Hood permanently attached to the car. Cant rails over doors are vinyl covered wood with aluminium pieces to hold the seal for the windows. Rear window secured with metal clips to a metal plate so the window could be lowered with the hood up for better ventilation. The later hood w/zippered window will fit if the metal strip for the clips is removed.

3000 BJ7 from (B) 59372 (approx. Apr 63); 3000 BJ8

Same as BJ7 except for rear window. Rear window has a zipper so the window can be lowered with the hood up for better ventilation. (These hoods can be fitted to any BJ7, so the early BJ7 hood with the clip-in rear window can be replaced.)

3000 BJ7 and BJ8 Convertible Hood Storage Covers

As with our tonneau covers, our hood stowage covers are manufactured for us in England to the exact original specifications in the British "Everflex" material in the correct colors. We have the BJ8 hood boots in Sun-Fast acrylic canvas, as well.

Tonneau Covers

Our tonneau covers are manufactured for us to the exact original specifications and patterns from British Everflex material in the correct colors. We also offer these made from "Stayfast" heavy acrylic canvas. "Stayfast" is engineered to be soft, supple and with tightly controlled stretch characteristics to insure that covers do not sag or otherwise lose their shape. All necessary fasteners are included with each tonneau cover kit, but not installed so you can get a perfect fit.

Our thanks to John Twist of Grand Rapids, Michigan for providing the following words of wisdom regarding electrical trouble-shooting, and for making sense out of standard Lucas wiring harness color coding as applicable to most British post-World War II vehicles.

Sorting out electrical problems requires a step-by-step, methodical approach. It is necessary to identify the problem, examine the wiring diagram, then trace the circuit, connection to connection (usually from the hot side), until the problem is found.

A quarter of all electrical problems arise from faulty battery connections; another quarter from a dirty fuse box.

As a rule, wires do not fail. The bullet connectors may corrode at the ends of the wires (rarely), or the connections may be loose (common!), but the wires are usually OK. Another rule: Wires begin and end outside the loom. There is no reason to cut through the PVC tape.

BLACK (B) Always EARTH (ground), unfused

Black (B):	Various locations
Black/green (BG):	URP switch to cooling fans
Black/white (BW):	Brake warning light

BROWN (N) Always HOT, unfused

Brown (N):	Various locations
Brown/light green (NLG):	Windscreen motor switch
Brown/yellow (NY):	Indicator light to alternator
Brown/purple (NP):	Unused

WHITE (W) HOT with ignition ON, unfused

White (W):	Key to ignition relay, cut-off switch, fuel pump, ignition ballast resistor, fuse box, various locations
White/black (WB):	distributor to coil, coil to tachometer
White/blue (WU):	Stepped down voltage for distributor amplifier
White/brown (WN):	Ignition switch relay to fuse box, starter solenoid to starter relay, oil pressure sender unit to gauge
White/green (WG):	Key switch to radio, HOT unfused at first key position; wipers and heater (earlier)
White/light green (WLG):	Solenoid to coil, ignition ballast resistor to coil
White/red (WR):	Key switch to starter relay, starter relay to brake warning diode

PURPLE (P) Always HOT, fused

Purple (P):	Fuse box to horn, various locations
Purple/black (PB):	Horn to horn switch
Purple/green (PG):	Key buzzer to time delay buzzer
Purple/pink (PK):	Key switch to key buzzer
Purple/white (PW):	courtesy lamp/boot lamp to earthing switches

It may be easier to visualize the wiring as plumbing: Wires as pipes; switches as valves; the battery as pressure; and all "juice" must return to the battery.

Light bulbs work or not. A dimly glowing bulb indicates a faulty earth (ground).

Carb. cleaner removes paint or undercoating from wires to expose the true color code.

If the trunk earth (ground) connection is loose or unattached (license holder bolts), the fuel pump, side markers, courtesy light, reverse lights, license lights, or tail-lights malfunction.

If the hazard switch is not snapped off with vigor, the turn signals may not operate.

Tools: A 12-volt test light and wiring diagram are necessities before beginning.

Warning: Approaching an electrical malfunction without a test light, or helter skelter, is a certain route to madness.

GREEN (G) HOT with ignition ON, fused

Green (G):	From fuse box to various locations
Green/black (GB):	Fuel tank unit to gauge
Green/blue (GU):	Temp. sender unit to gauge
Green/brown (GN):	Reverse lamp switch to reverse lights; heater fan to switch
Green/orange (GO):	Brake pressure switch, handbrake switch, brake warning diode, brake warning light
Green/pink (GK):	Service interval counter (EGR light)
Green/red (GR):	Left turn signals to switch
Green/white (GW):	Right turn signals to switch
Green/yellow (GY):	Heater to fan switch

RED (R) Parking lights, fused or unfused

Red (R):	Fuse box to side markers, parking lights, switch to lights,
Red/green (RG):	Light switch to fuse box, panel rheostat
Red/light green (RLG):	Wiper motor to switch
Red/white (RW):	Panel rheostat to panel lights
Red/Yellow (RY):	Fog/Driving lights

BLUE (U) Headlamps, unfused

Blue (U):	Light switch to dimmer switch
Blue/light green (ULG):	Wiper motor to switch
Blue/red (UR):	Dimmer switch to low beam
Blue/white (UW):	Dimmer switch to high beam, high beam indicator

LIGHT GREEN (LG) Various applications

Light Green/black (LGB):	Washer pump to switch
Light Green/brown (LGN):	Flasher to turn signal switch, flasher hazard switch
Light Green/green (LGG):	Voltage stabilizer to fuel/temp. gauges
Light Green/purple (LGP):	Hazard switch to hazard warning lamp

SLATE (S) HOT with ignition OFF, fused and unfused

Slate (S):	Key to in-line fuse
Slate/purple (SP):	Fuse to anti-run on valve
Slate/yellow (SY):	Anti-run on valve to oil pressure switch

YELLOW (Y) HOT in 3rd/4th, ignition ON, fused

Yellow (Y):	Overdrive switches
Yellow/brown (YN):	Driver's seat belt to time delay buzzer
Yellow/purple (YP):	Time delay buzzer to seat belt warning light; overdrive circuit
Yellow/red (YR):	Overdrive circuit

Lucas Archives - Starting System

RECOMMENDED TEST EQUIPMENT:

D.C. Moving Coil Voltmeter Scale 0-20V

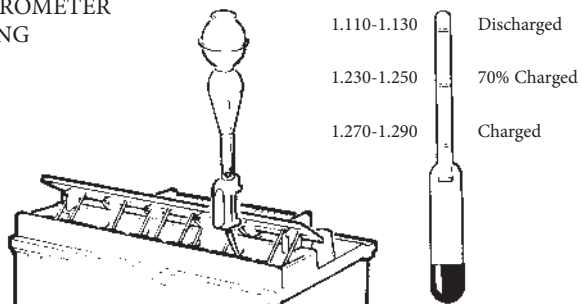

Hydrometer

Note:

1. Test figures quoted are typical only
2. During testing, the engine should be cranked without starting:
Gas - Disconnect coil to distributor LT lead
Diesel - Operate engine stop control

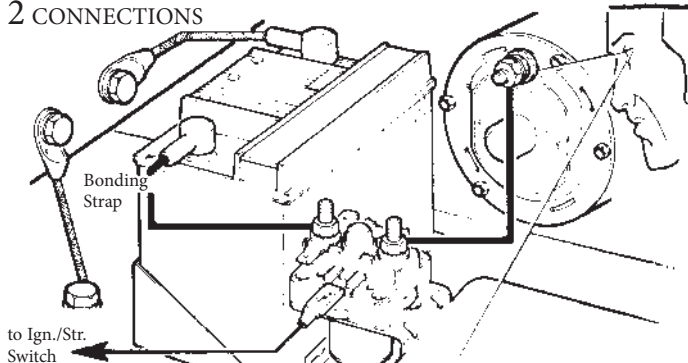

TEST:	RESULT
-------	--------

1 HYDROMETER READING

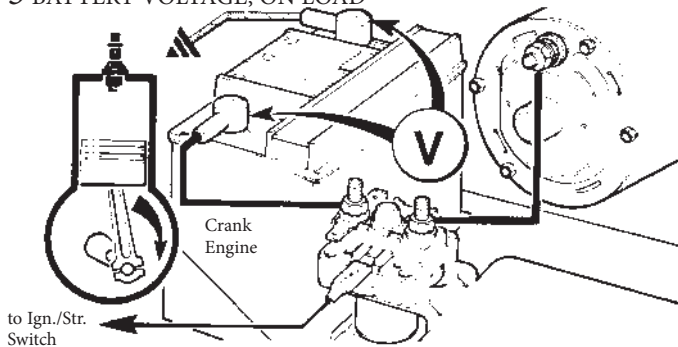

Below 1.230
Recharge and then test
—————> Test 2
1.230-1.290
—————> Test 2

2 CONNECTIONS

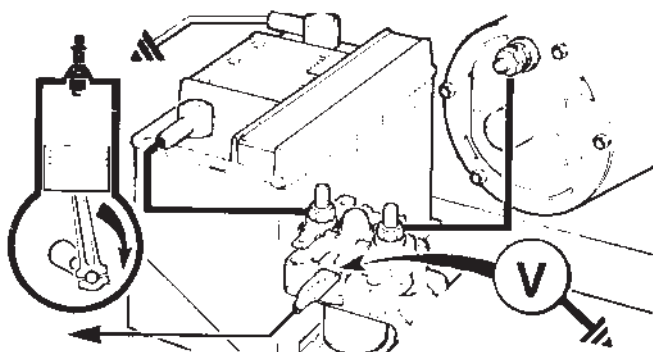

Clean and tight
—————> Test 3
Loose and/or dirty
Rectify
—————> Test 3

3 BATTERY VOLTAGE, ON LOAD

If starter does not motor, check solenoid operation, cables, earth connections. Rectify. Should be approx.
Inertia 10.5v
Pre-Engaged 10.0v
—————> Test 4
Below expected voltage, check battery charge and if low, re-test with good battery
—————> Test 4

4 VOLTAGE AT SOLENOID OPERATING TERMINAL

Should be:
Similar voltage to previous test
—————> Test 5
If voltage is lower than in previous test, check ignition/starter switch, all cables and connections, etc. Rectify.
—————> Test 5
See also note below

Lucas Archives - Starting System

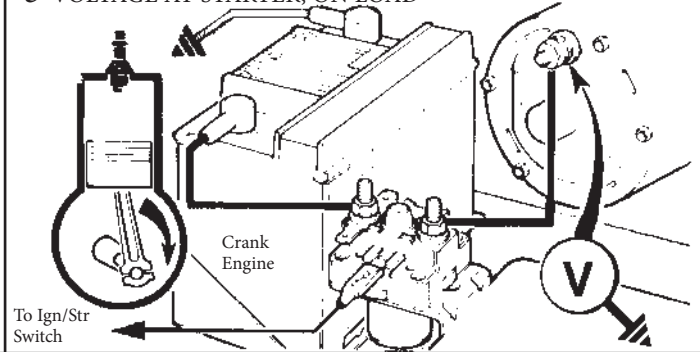

Should be:
Within 0.5V of voltage
in test 3

→ Circuit
Satisfactory

Voltage more than 0.5V
below reading in test 3

→ Test 6

5 VOLTAGE AT STARTER, ON LOAD

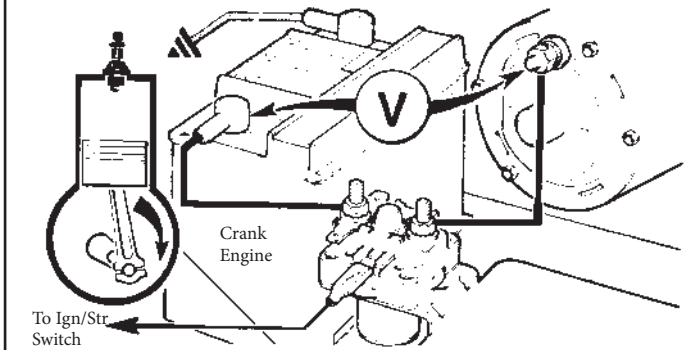

Should be:
Approx. zero voltage

→ Test 8

If above 0.5V

→ Test 7

6 VOLTAGE DROP, INSULATED LINE

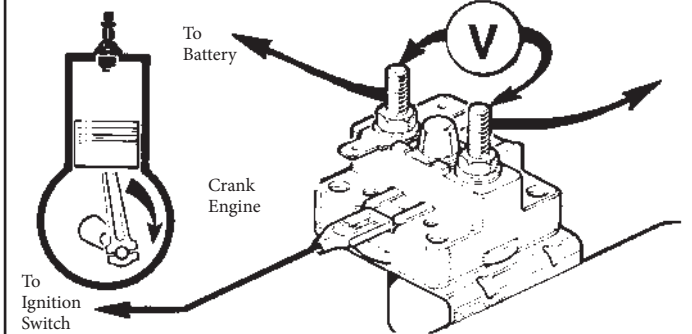

Should be:
Approx. zero voltage.
If shown, solenoid is
satisfactory and a fault
exists elsewhere in the
circuit. Check all insu-
lated line cables and
connections. Rectify.
Re-check as test 6

→ Test 8

If above 0.25 V, replace
solenoid

→ Test 8

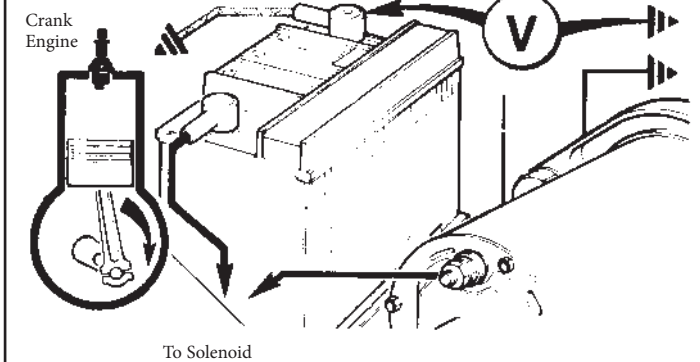

7 VOLTAGE DROP, SOLENOID CONTACTS

Should be:
Approx. zero voltage.

If above 0.25V, check
all earth connections
including chassis/
engine bonding strap.

8 VOLTAGE DROP, EARTH LINE

General Hardware & Fixings

Following is a listing of the common fasteners used on Austin-Healey cars. These fasteners are for general use and are not intended to replace those listed for specific applications elsewhere in this catalogue. To aid identification by terminology, a screw is threaded for its full length. A bolt is only part threaded with a plain unthreaded shank area between the head and the thread. The part number two letter prefix of SH means that the item is a Screw with a Hexagon head. The prefix BH means a Bolt with a Hexagon head. The first number defines the thread type, UNF = 6, UNC = 5. The second and third numbers give the thread diameter in increments of 1/16", e.g. 04 = 1/4", 05 = 5/16", 10 = 5/8". The fourth and fifth digits show the length in increments of 1/8", e.g. 04 = 1/2", 16 = 2", 23 = 2 7/8". The last digit defines finish, 1 = zinc plated. This coding system is only applicable to bolts and screws; nuts & washers are coded by a similar system that follows some of the above principles.

Bolts and Set Screws

3/16" UNF

Hexagon Headed 3/8" A.F. Spanner Size

Bolt	Length	Set Screw
	3/8"	HU503
	1/2"	HU504
	5/8"	HU505
	3/4"	HU506
	7/8"	HU507
	1"	HU508

1/4" UNF

Hexagon Headed 7/16" A.F. Spanner Size

Bolt	Length	Set Screw

Studs

A stud is a length of round bar threaded at both ends. The length of thread at each end of the stud may vary for specific applications. The following list is of studs have fine (UNF) threads at both ends.

Part Number	Diameter	Overall length
TE604081	1/4"	1"
TE604091	1/4"	1 1/8"
TE604101	1/4"	1 1/4"
TE605101	5/16"	1 1/4"
TE605111	5/16"	1 3/8"
TE605121	5/16"	1 1/2"
TE605131	5/16"	1 5/8"
TE605141	5/16"	1 3/4"
TE605151	5/16"	1 7/8"
TE605181	5/16"	2 1/4"
TE605201	5/16"	2 1/2"
TE605221	5/16"	2 3/4"
TE605251	5/16"	3 1/8"
TE605291	5/16"	3 5/8"
TE606101	3/8"	1 1/4"
TE606111	3/8"	1 3/8"
TE606121	3/8"	1 1/2"
TE606141	3/8"	1 3/4"
TE606151	3/8"	1 7/8"

Note: The following studs have fine (UNF) threads at one end and course (UNC) at the other.

Part Number	Diameter	Overall length
TE504081	1/4"	1"
TE504131	1/4"	1 5/8"

GHC10413	16 - 25 mm
GHC10414	20 - 32 mm
GHC10415	25 - 40 mm
GHC10416	32 - 50 mm
GHC10417	46 - 60 mm
GHC10418	50 - 70 mm
GHC10419	60 - 80 mm
GHC10420	70 - 90 mm
GHC10421	80 - 100 mm

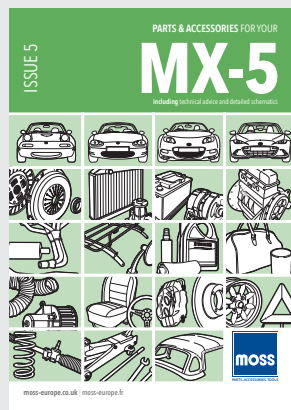

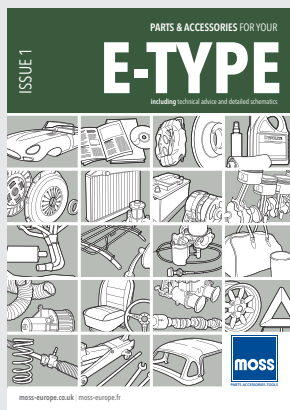

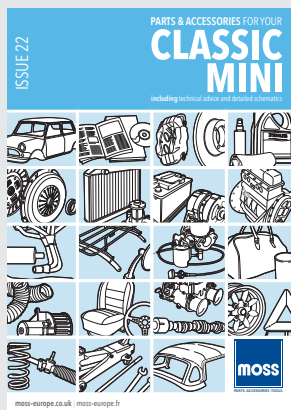

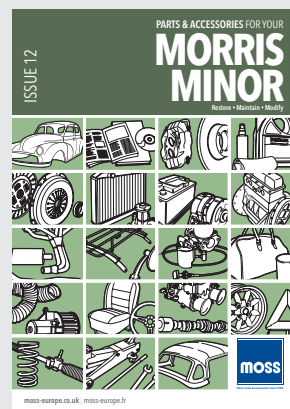

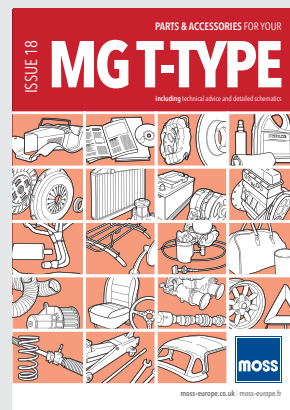

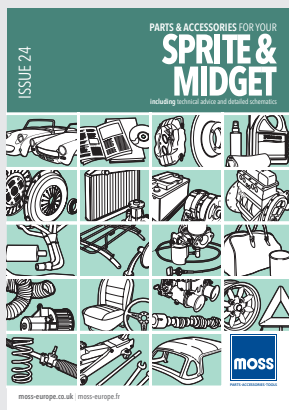

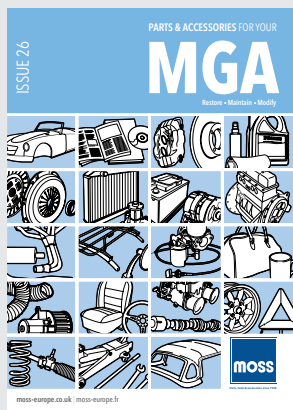

For your notes...

A series of horizontal dashed lines intended for taking notes, spanning the width of the page.

What's in our free catalogues?

- Full colour accessory parts section, with colour images, £ prices and comprehensive information of each product, including interior, exterior and performance parts.

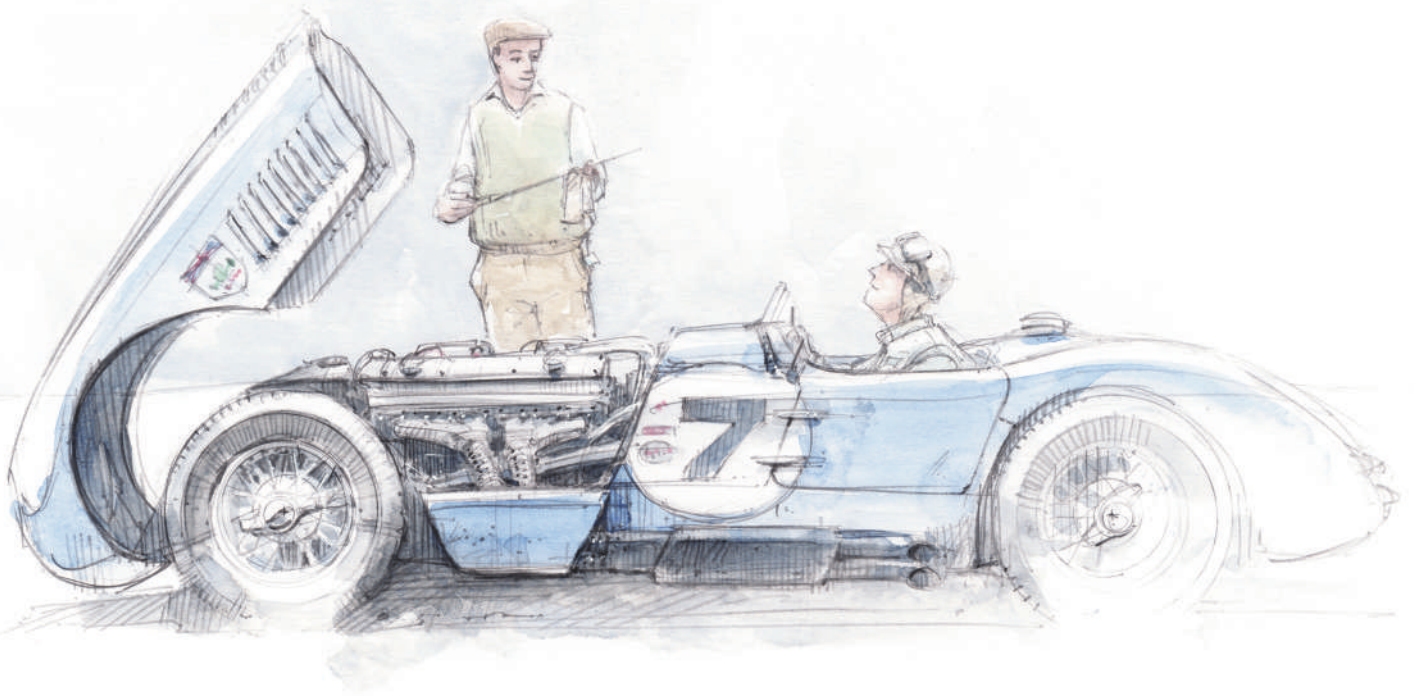

- Detailed annotated diagrams of vehicle components with comprehensive text listings detailing each part.

Our catalogues are absolutely free of charge, no matter where you are in the world, including delivery to UK, EU and the rest of the world. However, we will only pay the postal costs for one catalogue per customer. For online orders, your preferred catalogue must be 'added to basket' and an order placed in order for fulfilment. No payment details are required when placing this order. Moss reserve the right to refuse or withdraw an order at anytime should we consider that this offer is being unreasonably exploited.

DYNOLITE

EUROPE'S CLASSIC MOTOR OIL

Dynolite Oil produces high quality oils and lubricants for vintage, classic and racing applications. Including lubricants for engines, gearboxes, steering boxes and greases. Dynolite lubricants are specially developed for historic vehicles to offer far superior mechanical protection.
